Product Description:

The Animal Capture Tool is a reliable and efficient creature catching device designed for wildlife management purposes. Crafted from high-quality stainless steel, this critter grabbing apparatus is built to last and withstand rugged outdoor conditions. Equipped with a spring-loaded trigger, the Animal Capture Tool offers a quick and effective way to capture and handle various wildlife species. The non-slip handle provides a secure grip, ensuring precision and control during use. Designed for convenience, this tool features a quick release mechanism that allows for easy and safe release of captured animals. Weighing just 2.1kg, it is lightweight and portable, making it ideal for fieldwork and wildlife management tasks. The Animal Capture Tool is not only lightweight and portable but also highly durable. Its rust-resistant construction ensures longevity, even in harsh outdoor environments. The durable design of this tool guarantees reliable performance, making it a valuable asset for wildlife professionals and enthusiasts alike.

Features:

Product Name: Animal Capture Tool
Model: HL-Q16B
Weight: 2.1kg
Application: Wildlife Management
Function: Capture And Hold Animals
Safety Features: Rubber Tips, Locking Mechanism

Technical Parameters:

Material	Stainless Steel
Weight	2.1kg
Function	Capture And Hold Animals
Model	HL-Q16B
Features	Spring-loaded Trigger, Non-slip Handle, Quick Release Mechanism
Compatibility	Large Animals, Like Pig
Safety Features	Rubber Tips, Locking Mechanism
Application	Wildlife Management
Size	Adjustable
Color	Silver

Applications:

The Chuangpu HL-Q16B Animal Capture Tool, originating from China, is a versatile product designed for various situations requiring the capture and restraint of animals. This innovative tool is equipped with a pet seizing mechanism that efficiently captures and holds animals in a safe and humane manner.

One of the primary application occasions for the Chuangpu Animal Capture Tool is in the field of wildlife management. Whether capturing stray or injured animals for relocation or rescue purposes, this tool offers a practical solution for wildlife entrapment scenarios. Furthermore, the tool's compatibility with large animals, such as pigs, makes it an essential device for farmers and animal control professionals. Its adjustable size and secure locking mechanism ensure that animals are safely captured without causing harm. In addition to its use in wildlife and farm settings, the Chuangpu Animal Capture Tool can also be utilized in urban environments for the humane capture of stray pets or injured wildlife. The rubber tips and safety features of the tool help prevent injury to both the handler and the captured animal.

Overall, the Chuangpu HL-Q16B Animal Capture Tool is a reliable and effective solution for a wide range of animal capture and holding needs. Its pet seizing mechanism, combined with its safety features and compatibility with large animals, make it an indispensable tool for anyone involved in animal control, rescue, or wildlife management.

PRODUCT INTRODUCTION

HOLDER

Product name: holder

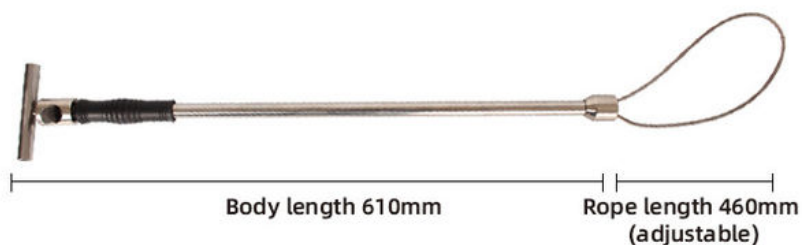

Product model: HL-Q16A、HL-Q16B

Features:
