### Product Description:

The Animal Capture Tool is a versatile Fauna Containment Apparatus designed for efficiently capturing small to medium-sized animals. With its high portability and adjustable length of 166CM to 240CM, this Beast Apprehension Instrument is an essential tool for wildlife management and veterinary care professionals.

Portability is a key feature of this product, as it allows users to easily transport the tool to various locations where animal capture is required. Whether in the field or in a veterinary clinic, the portability of this Pet Seizing Mechanism ensures quick and effective capture of animals without causing them harm.

The Animal Capture Tool is compatible with a wide range of small to medium-sized animals, making it a versatile tool for various capture scenarios. Its high durability ensures that it can withstand the rigors of regular use in wildlife management and veterinary care settings, providing reliable performance when handling animals.

Designed for wildlife management and veterinary care applications, this tool is a valuable asset for professionals working with animals. Its adjustable length of 166CM to 240CM allows users to customize the tool to fit their specific needs, providing flexibility in capturing animals of different sizes and species.

### Features:

Product Name: Animal Capture Tool

Application: Wildlife Management, Veterinary Care

Weight: 2KG

Durability: High

Ease Of Use: Easy

Length: Adjustable 166CM-240CM

### Technical Parameters:

Portability	Portable
Net Diameter	60CM
Handle Material	Stainless Steel
Color	Silver
Compatibility	Small To Medium-sized Animals
Ease Of Use	Easy
Length	Adjustable 166CM-240CM
Application	Wildlife Management, Veterinary Care
Durability	High
Weight	2KG

### Applications:

The Chuangpu Animal Capture Tool, model HL-Q16C, is a versatile equipment designed for capturing and handling animals in various scenarios. With its lightweight design weighing only 2KG, this tool is perfect for wildlife management and veterinary care applications. Whether you are dealing with furry creatures in the wild or need to safely contain fauna in a veterinary setting, the Chuangpu Animal Capture Tool is a reliable choice. Its portability allows for easy transportation to different locations, making it a convenient tool for professionals in the field.

The net material of this device is made of durable nylon, ensuring the secure capture of animals without causing harm. The handle material, constructed from stainless steel, provides a sturdy grip for effective handling of captured animals.

Whether you are a wildlife researcher, a veterinarian, or a zoologist, the Chuangpu Animal Capture Tool serves as a valuable zoological incarceration device. It helps in safely capturing, handling, and transporting animals for various purposes, ensuring the well-being of both the animals and the handlers.
