

Manual Pulsation Ratio Adjustment Milking Machine Pulsator Pneumatic L80 With SS Ports

Our Product Introduction

more products please visit us on mobilemilkingmachine.com

Basic Information

- Place of Origin: China
- Brand Name: Chuangpu
- Model Number: HL-P01 L80
- Minimum Order Quantity: 1 PCS
- Price: Negotiable
- Packaging Details: Carton
- Delivery Time: 3-5 working days
- Payment Terms: T/T, Western Union,
- Supply Ability: 50000PCS /Month

Product Specification

- Pulsation Ratio: 60:40
- Material: Stainless Steel
- Type: Pneumatic
- Type Of Animal: Cow, Sheep, Goat.
- Frequency: 50Hz
- Pulsation: Adjustable
- Vacuum Ports: 2
- Pulsation Ratio Adjustment: Manual
- Highlight: **Pneumatic Milking Machine Pulsator, SS Ports Milking Machine Pulsator, Manual pulsator for milking**

Product Description:

The Milking Machine Pulsator is a vital component for livestock operations, specifically designed for efficient bovine milking processes. With its manual pulsation ratio adjustment feature, this pneumatic pulsator offers flexibility and control to suit various dairy farming needs. Designed for use in farms and retail settings, this Milking Machine Pulsator is a reliable tool for enhancing milk production processes. Its usability in multiple applicable industries makes it a versatile choice for those involved in dairy farming.

The pulsator is equipped with both 2 and 4 vacuum ports, providing options for different milking setups and configurations. This versatility allows users to adapt the pulsator to their specific milking equipment and requirements, ensuring optimal performance and efficiency.

As a pneumatic pulsator, this product is known for its durability and reliability in the demanding environment of dairy operations. The pneumatic design ensures consistent performance and smooth pulsation cycles, contributing to higher productivity and milk quality. Whether you are operating a small-scale farm or a larger retail dairy business, the Milking Machine Pulsator offers the functionality and performance needed to streamline your milking processes. Its compatibility with various milking machines and systems makes it a valuable addition to any livestock operation.

When looking for a reliable dairy machine pulsator that can meet the demands of daily milking routines, the Milking Machine Pulsator stands out as a dependable choice. Its robust construction and pneumatic operation make it a durable and long-lasting solution for consistent milking performance.

Featuring manual pulsation ratio adjustment, this pulsator allows users to fine-tune the milking process according to their preferences and the needs of their livestock. This level of control and customization ensures efficient milk extraction and promotes animal comfort during milking sessions.

For dairy farmers and livestock owners seeking a high-quality bovine milking pulsator, this product offers the precision and reliability required for successful milk extraction. Its pneumatic design and adjustable settings make it a valuable tool for optimizing milking efficiency and maintaining milk production levels.

In conclusion, the Milking Machine Pulsator is a versatile and efficient solution for dairy operations, suitable for farms and retail settings. With its manual pulsation ratio adjustment, compatibility with 2 and 4 vacuum ports, and durable pneumatic construction, this pulsator is a reliable choice for enhancing milking processes and ensuring consistent milk production.

Features:

Product Name: Milking Machine Pulsator-----

Type: Pneumatic

Pulsation Rate: 60 Cycles Per Minute

Pulsation Phase: Alternating

Vacuum Ports: 2 And 4

Item: Pneumatic Pulsator

Technical Parameters:

Technical Parameter	Specification
Pulsation Phase	Alternating
Type	Pneumatic
Applicable Industries	Farms, Retail
Pulsation Ratio Adjustment	Manual
Pulsation	Adjustable
Item	Pneumatic Pulsator
Pulsation Ratio	60:40
Type Of Animal	Cow, Sheep, Goat
Material	Stainless Steel

Applications:

The Chuangpu HL-P01 L80 Milking Machine Pulsator is a versatile piece of livestock pulsation equipment designed for efficient and effective milking processes. Originating from China, this pulsator is built with high-quality stainless steel material, ensuring durability and longevity even under demanding conditions.

With a frequency of 50Hz, the Chuangpu HL-P01 L80 Milking Machine Pulsator offers reliable performance during milking operations. Its manual pulsation ratio adjustment feature allows users to customize the pulsation settings according to specific needs, ensuring optimal milking results.

The pulsation phase of this pneumatic pulsator is alternating, providing gentle and consistent pulsation to facilitate the milking process. This feature is particularly beneficial for bovine milking, ensuring thorough and efficient milk extraction without causing unnecessary stress to the animals.

Whether used in small-scale dairy farms or large commercial milking operations, the Chuangpu HL-P01 L80 Milking Machine Pulsator proves to be a valuable tool for enhancing productivity and milk quality. Its reliable performance and user-friendly design make it suitable for various milking scenarios, from daily milking routines to specialized milking processes.

Overall, the Chuangpu HL-P01 L80 Milking Machine Pulsator is a reliable and efficient solution for livestock pulsation equipment, offering a combination of durability, performance, and versatility for optimal milking results.

L80 Pneumatic Milk Pulsator

Product name: L80 Pneumatic Milk Pulsator
Product Model: HL-P01
Product Feature:
1.Three model available
2.Effective regulation of pulsation frequency for gentle milking
3.Tightly structured, airtight, strong and durable

PRODUCT PARAMETERS

Model: L80	Pulsator Rate: 60:40
Material: SS Shell	Exit Dia: 9.5mm
Exits: 2 plastic	Package: Cartons
Usage: cow/goat milking parts	

Model: L80	Pulsator Rate: 60:40
Material: SS Shell	Exit Dia: 9.5mm
Exits: 4 plastic	Package: Cartons
Usage: cow/goat milking parts	

Model: L80	Pulsator Rate: 60:40
Material: SS Shell	Exit Dia: 9.5mm
Exits: 2 SS	Package: Cartons
Usage: cow/goat milking parts
