

Standard Dairy Milking System Components DL01 Milking Machine Liner The Ultimate Solution for Your Farm

Our Product Introduction

more products please visit us on mobilemilkingmachine.com

Basic Information

- Place of Origin: China
- Brand Name: Chuangpu
- Model Number: DL01
- Minimum Order Quantity: 1 Bag
- Price: Negotiable
- Packaging Details: Carton
- Delivery Time: 3-5 working days
- Payment Terms: T/T, Western Union,
- Supply Ability: 50000BAG /Month

Product Specification

- Cleaning Method: Easy To Clean
- Shape: Cylindrical
- Design: Ribbed
- Usage: For Milking Machines
- Flexibility: Flexible
- Teat Cup Size: 140mm/42mm/25mm
- Durability: Long-lasting 2500 Milking Times
- Quantity: Pack Of 4

Product Description:

The Milking Machine Liners are an essential accessory for any livestock milking mechanism. Designed to fit most milking machines, these liners ensure efficient and effective milking processes for dairy farmers. Each pack contains 4 cylindrical-shaped liners made of durable rubber material, providing long-lasting performance and reliability.

Compatible with a wide range of milking machines, these liners are a versatile solution for dairy farms of all sizes. Whether you have a small-scale operation or a large commercial dairy farm, these liners will seamlessly integrate into your milking system, ensuring smooth and consistent milking performance.

One of the key advantages of these Milking Machine Liners is their easy cleaning method. Maintaining hygiene and cleanliness is crucial when it comes to cow milking accessories, and these liners make the process hassle-free. Simply wash the liners with a mild detergent and water after each use to keep them in optimal condition for the next milking session.

With a pack of 4 liners included, you will have an ample supply to rotate and replace as needed. This quantity ensures that you always have spare liners on hand, allowing for continuous milking operations without interruptions. The convenience of having a pack of 4 liners also means you can easily replace them when necessary, ensuring the efficiency of your milking process.

The cylindrical shape of these liners is specifically designed to work seamlessly with vacuum teat cups, providing a secure and effective milking experience for the cows. The shape of the liners optimizes the suction and pressure needed for efficient milk extraction, resulting in a more comfortable and productive milking process for both the cows and the farmers.

Made from high-quality rubber material, these Milking Machine Liners are built to withstand the rigors of daily milking operations. The durable construction ensures that the liners are resistant to wear and tear, extending their lifespan and delivering consistent performance over time. You can rely on these liners to withstand the demands of regular milking activities while maintaining their effectiveness.

In conclusion, the Milking Machine Liners are a must-have accessory for any dairy farm looking to optimize its milking process. With their compatibility, easy cleaning method, pack of 4 quantity, cylindrical shape, and durable rubber material, these liners provide a reliable solution for enhancing the efficiency and effectiveness of cow milking operations. Invest in these high-quality liners to improve your milking system and ensure the well-being of your livestock.

Features:

Product Name: Milking Machine Liners

Quantity: Pack Of 4

Shape: Cylindrical

Size: Standard

Design: Ribbed

Resistance: Chemical And Wear Resistant

Technical Parameters:

Design	Ribbed
Resistance	Chemical And Wear Resistant
Quantity	Pack Of 4
Material	Rubber
Animal	Cow
Size	Standard
Cleaning Method	Easy To Clean
Compatibility	Fits Most Milking Machines
Flexibility	Flexible
Installation	Simple And Quick

Applications:

Product Application Occasions and Scenarios for the Milking Machine Liners by Chuangpu (Model: DL01) from China: -----

The Milk Extraction Tubes by Chuangpu are essential dairy farming equipment designed for efficient milk extraction. With a cylindrical shape, these liners are perfect for use in milking machines to facilitate the milking process. The Pack of 4 liners provides convenience and ensures a steady supply for continuous use.

Thanks to their flexibility, these Milk Extraction Tubes can easily adapt to different milking machine setups, making them suitable for various dairy farm sizes and configurations. Their chemical and wear-resistant properties ensure long-lasting performance even in demanding milking environments.

Whether you are operating a small-scale dairy farm or a large commercial operation, the Chuangpu Milk Extraction Tubes are versatile and reliable, offering consistent results in milk extraction. The durable construction of these liners makes them a cost-effective solution for dairy farmers looking to optimize their milking processes.

From routine milking sessions to intensive milking schedules, the Milk Extraction Tubes by Chuangpu are designed to meet the needs of modern dairy farmers. Their resistance to chemicals and wear ensures that they can withstand the rigors of daily milking operations, providing peace of mind and efficiency in milk extraction.
