

## 60/40 Pulsation Ratio Milking Machine Pulsator L90 Ultimate Solution for Dairy Farmers

Our Product Introduction

more products please visit us on [mobilemilkingmachine.com](http://mobilemilkingmachine.com)

### Basic Information

- Place of Origin: China
- Brand Name: Chuangpu
- Model Number: HL-P02 L90
- Minimum Order Quantity: 1 PCS
- Price: Negotiable
- Packaging Details: Carton
- Delivery Time: 3-5 working days
- Payment Terms: T/T, Western Union,
- Supply Ability: 50000PCS /Month

### Product Specification

- Item: Pneumatic Pulsator
- Pulsation Phase: Alternating
- Applicable Industries: Farms, Retail
- Pulsation Ratio: 60:40
- Pulsation Ratio Adjustment: Manual
- Vacuum Ports: 2
- Type: Pneumatic
- Pulsation: Adjustable
- Highlight: Dairy Farmers Milking Pulsator, 60/40 Pulsation Ratio Milking Machine Pulsator, Dairy Farmers Milking Machine Pulsator

### Product Description:

The Cow Milking Pulsator is an essential component for efficient milking processes in farms and retail settings. With its advanced features and reliable performance, this Bovine Milking Pulsator is designed to streamline milking operations and improve productivity. Equipped with 2 vacuum ports, this Livestock Machine Pulsator ensures optimal suction power for consistent milking results. The dual ports allow for efficient milk flow and balanced pressure distribution during the milking process, enhancing overall performance. Operating at a pulsation rate of 60 cycles per minute, this pneumatic milking machine pulsator delivers consistent and gentle pulsation to mimic the natural milking process. The precise pulsation rate helps in maintaining udder health and ensuring thorough milk extraction, leading to high-quality milk production.

The alternating pulsation phase of this milking machine pulsator ensures thorough milking by simulating the natural suckling action of calves. This gentle yet effective pulsation pattern helps in preventing over-milking and reducing stress on the udder, promoting overall animal welfare.

Designed for use in farms and retail environments, this Cow Milking Pulsator is suitable for a wide range of applicable industries. Whether used in small-scale dairy farms or large retail milking operations, this versatile pulsator enhances milking efficiency and productivity. Investing in the right milking machine pulsator is crucial for achieving optimal milk production and maintaining the health of your livestock. With its dual vacuum ports, precise pulsation rate, and alternating pulsation phase, this pneumatic pulsator is a reliable choice for farmers and retailers looking to streamline their milking processes.

Experience the benefits of efficient milking operations with the Cow Milking Pulsator. Improve milk quality, enhance udder health, and increase productivity with this advanced milking machine pulsator designed for farms and retail settings.

### Features:

Product Name: Milking Machine Pulsator  
Item: Pneumatic Pulsator  
Type Of Animal: Cow, Sheep, Goat  
Applicable Industries: Farms, Retail  
Vacuum Ports: 2  
Pulsation Rate: 60 Cycles Per Minute

### Technical Parameters:

Item	Pneumatic Pulsator
Pulsation Rate	60 Cycles Per Minute
Vacuum Ports	2
Pulsation Ratio	60:40
Pulsation Phase	Alternating
Pulsation	Adjustable
Pulsation Ratio Adjustment	Manual
Type Of Animal	Cow, Sheep, Goat
Type	Pneumatic
Applicable Industries	Farms, Retail

### Applications:

The Milking Machine Pulsator offered by Chuangpu, model HL-P02 L90, is a versatile and efficient Animal Pulsation Device designed to streamline the milking process for cows, sheep, and goats. Originating from China, this Farming Machine Pulsator features two Vacuum Ports, providing stable suction for optimal milking performance.

One of the standout attributes of this Milking Machine Pulsator is its Adjustable Pulsation settings, allowing farmers to customize the pulsation rate according to their specific needs. With a Pulsation Ratio of 60:40, this device ensures gentle and effective milking,

promoting animal comfort and milk flow.  
Constructed from high-quality Stainless Steel, the Chuangpu Milking Machine Pulsator is durable and easy to clean, ensuring hygiene standards are met during milking operations. Whether used on a small family farm or a larger commercial operation, this pulsator is built to withstand the demands of daily milking routines.  
Farmers can rely on this Milking Machine Pulsator to enhance efficiency and productivity in their milking processes. Whether milking cows, sheep, or goats, this device offers consistent performance and reliable suction, resulting in faster milking times and improved overall milk quality.  
In conclusion, the Chuangpu HL-P02 L90 Milking Machine Pulsator is a valuable tool for dairy farmers looking to optimize their milking operations. With its adjustable pulsation settings, durable stainless steel construction, and compatibility with multiple animal types, this pulsator is a must-have for any modern dairy farm.

**L90 Pneumatic Milk Pulsator**

Product name: L90 Pneumatic Milk Pulsator  
Product Model: HL-P01  
1.Three model available  
2.Effective regulation of pulsation frequency for gentle milking  
3.Tightly structured, airtight, strong and durable

**PRODUCT PARAMETERS**

**Model:** L90                      **Pulsator Rate:** 60:40  
**Material:** Plastic Shell   **Exit Dia:** 9.5mm  
**Exits:** 2 plastic              **Package:** Cartons  
**Usage:** cow/goat milking parts

**Model:** L90                      **Pulsator Rate:** 60:40  
**Material:** Plastic Shell   **Exit Dia:** 9.5mm  
**Exits:** 4 plastic              **Package:** Cartons  
**Usage:** cow/goat milking parts

**Model:** L90                      **Pulsator Rate:** 60:40  
**Material:** Plastic Shell   **Exit Dia:** 9.5mm  
**Exits:** 2 SS                      **Package:** Cartons  
**Usage:** cow/goat milking parts
