

Retail L90 2 Ports Milking Machine Pulsator Adjustable Pulsation Alternating Pulsation Phase

Our Product Introduction

more products please visit us on mobilemilkingmachine.com

Basic Information

- Place of Origin: China
- Brand Name: Chuangpu
- Model Number: HL-P02 L90
- Minimum Order Quantity: 1 PCS
- Price: Negotiable
- Packaging Details: Carton
- Delivery Time: 3-5 working days
- Payment Terms: T/T, Western Union,
- Supply Ability: 50000PCS /Month

Product Specification

- Pulsation Rate: 60 Cycles Per Minute
- Applicable Industries: Farms, Retail
- Pulsation Ratio Adjustment: Manual
- Pulsation Phase: Alternating
- Vacuum Ports: 2
- Pulsation: Adjustable
- Pulsation Ratio: 60:40
- Type: Pneumatic
- Highlight: **Retail Milking Machine Pulsator, Alternating Pulsation Phase Milking Machine Pulsator, Adjustable Pulsation Milking Machine Pulsator**

Product Description:

The Udder Milking Pulsator is an essential component of livestock pulsation equipment designed for efficient and effective milking processes. With a pulsation ratio of 60:40, this ranching machine pulsator ensures optimal pulsation performance during milking activities. Equipped with two vacuum ports, it provides reliable suction power to facilitate the milking process seamlessly. Designed for use in farms and retail environments, this pneumatic milking machine pulsator is a versatile tool that caters to the needs of various industries. Its robust construction and reliable functionality make it suitable for both small-scale farms and large commercial operations.

The alternating pulsation phase of this milking machine pulsator ensures gentle and consistent milking action, promoting udder health and overall milk quality. By replicating the natural sucking rhythm of calves, this pulsator creates a comfortable and stress-free milking experience for dairy animals.

Whether you are a farmer looking to streamline your milking process or a retailer in need of reliable livestock pulsation equipment, the Udder Milking Pulsator is a valuable asset that enhances productivity and efficiency in milking operations. Its user-friendly design and durable construction make it a trusted choice for professionals in the dairy industry.

Features:

Product Name: Milking Machine Pulsator

Pulsation Ratio: 60:40

Pulsation Ratio Adjustment: Manual

Pulsation: Adjustable

Type Of Animal: Cow, Sheep, Goat

Pulsation Phase: Alternating

Technical Parameters:

Pulsation Rate	60 Cycles Per Minute
Applicable Industries	Farms, Retail
Pulsation	Adjustable
Item	Pneumatic Pulsator
Pulsation Ratio Adjustment	Manual
Pulsation Phase	Alternating
Material	Stainless Steel
Type Of Animal	Cow, Sheep, Goat
Vacuum Ports	2
Type	Pneumatic

Applications:

The Chuangpu HL-P02 L90 Milking Machine Pulsator is a versatile farming machine pulsator designed for milking cows, sheep, and goats. Made from durable stainless steel, this pulsator is built to last and withstand the demands of daily milking routines in farms and dairy operations. With 2 vacuum ports, this pulsator provides efficient milking performance for multiple animals simultaneously.

One of the key features of the Chuangpu HL-P02 L90 Milking Machine Pulsator is its manual pulsation ratio adjustment, allowing farmers to customize the pulsation settings according to the specific needs of different animals. This adjustable pulsation feature ensures gentle and effective milking, promoting animal comfort and milk production.

Whether you are milking cows, sheep, or goats, the Chuangpu HL-P02 L90 Milking Machine Pulsator is suitable for a wide range of animal types, making it a versatile tool for dairy farmers and livestock owners. Its reliable performance and sturdy construction make it a valuable asset in any milking operation, providing consistent results and improved efficiency.

Imported from China, this bovine milking pulsator is designed to meet the high standards of quality and performance expected in modern

milking equipment. Farmers can rely on the Chuangpu HL-P02 L90 Milking Machine Pulsator to streamline their milking process and enhance overall productivity on the farm.

L90 Pneumatic Milk Pulsator

Product name: L90 Pneumatic Milk Pulsator
Product Model: HL-P01
1.Three model available
2.Effective regulation of pulsation frequency for gentle milking
3.Tightly structured, airtight, strong and durable

PRODUCT PARAMETERS

Model: L90 **Pulsator Rate:** 60:40
Material: Plastic Shell **Exit Dia:** 9.5mm
Exits: 2 plastic **Package:** Cartons
Usage: cow/goat milking parts

Model: L90 **Pulsator Rate:** 60:40
Material: Plastic Shell **Exit Dia:** 9.5mm
Exits: 4 plastic **Package:** Cartons
Usage: cow/goat milking parts

Model: L90 **Pulsator Rate:** 60:40
Material: Plastic Shell **Exit Dia:** 9.5mm
Exits: 2 SS **Package:** Cartons
Usage: cow/goat milking parts
