Basic Information

- Place of Origin: China
- Brand Name: Chuangpu
- Model Number: HL-P03 L90
- Minimum Order Quantity: 1 PCS
- Price: Negotiable
- Packaging Details: Carton
- Delivery Time: 3-5 working days
- Payment Terms: T/T, Western Union,
- Supply Ability: 50000PCS /Month

Product Specification

- Type: Pneumatic
- Pulsation Rate: 60 Cycles Per Minute
- Item: Pneumatic Pulsator
- Material: Stainless Steel
- Vacuum Ports: 4
- Applicable Industries: Farms, Retail
- Pulsation: Adjustable
- Pulsation Ratio: 60:40
- Highlight: Professional Milking Machine Pulsator, Stainless Steel Milking Machine Pulsator, 60/40 Milking Machine Pulsator

Product Description:

Are you in need of a reliable and efficient Milking Machine Pulsator for your dairy farm or retail business? Look no further, as our top-of-the-line Dairy Machine Pulsator is here to meet your needs. Designed with precision and quality in mind, this Udder Milking Pulsator offers adjustable pulsation settings, making it ideal for use with cows, sheep, and goats.

One of the key features of this Livestock Machine Pulsator is its adjustable pulsation, allowing you to customize the pulsation rate according to your specific requirements. Whether you prefer a gentle or more intense pulsation, this Milking Machine Pulsator has you covered.

With a pulsation ratio of 60:40, this Dairy Machine Pulsator ensures optimal milking efficiency while maintaining the health and comfort of your animals. The balanced pulsation ratio is crucial for achieving high-quality milk output and promoting udder health.

Equipped with 4 vacuum ports, this Udder Milking Pulsator offers versatility and convenience during milking operations. The multiple ports allow for simultaneous milking of multiple animals, saving you time and effort in the process.

Designed to cater to a variety of industries, this Livestock Machine Pulsator is suitable for farms and retail establishments alike. Whether you run a small family farm or a larger commercial operation, this Milking Machine Pulsator is a reliable choice for all your milking needs. When it comes to the type of animals this Dairy Machine Pulsator can handle, rest assured that it is compatible with cows, sheep, and goats. This versatility makes it a valuable investment for farmers with diverse livestock populations, allowing for seamless milking operations across different animal species.

Invest in quality and efficiency with our Milking Machine Pulsator. With its adjustable pulsation, versatile vacuum ports, and compatibility with various animal types, this Udder Milking Pulsator is a must-have for any dairy farm or retail business. Upgrade your milking process today with this top-of-the-line Livestock Machine Pulsator.

Features:

Cow Milking Pulsator: Milking Machine Pulsator

Livestock Pulsation Equipment: Milking Machine Pulsator

Farming Machine Pulsator: Milking Machine Pulsator

Type Of Animal: Cow, Sheep, Goat

Material: Stainless Steel

Vacuum Ports: 4

Pulsation Ratio Adjustment: Manual

Pulsation Phase: Alternating

Technical Parameters:

Applicable Industries	Farms, Retail
Vacuum Ports	4
Pulsation	Adjustable
Type	Pneumatic
Pulsation Ratio	60:40
Type Of Animal	Cow, Sheep, Goat
Pulsation Phase	Alternating
Item	Pneumatic Pulsator
Pulsation Rate	60 Cycles Per Minute
Material	Stainless Steel

Applications:

The Chuangpu HL-P03 L90 Milking Machine Pulsator is a high-quality pneumatic pulsator designed for efficient milking processes in a

variety of settings. With its origins in China, this pulsator boasts 4 vacuum ports, making it a versatile choice for farms and retail environments.

As an essential component of milking machines, this animal pulsation device is suitable for a range of livestock types, ensuring a gentle and effective milking process. The alternating pulsation phase of the Chuangpu pulsator mimics the natural sucking rhythm of animals, promoting optimal milk flow.

Whether you are operating a small-scale farm or a retail dairy business, the HL-P03 L90 pulsator offers a reliable solution for your milking needs. Its 60:40 pulsation ratio ensures thorough and consistent milking results, contributing to the overall efficiency of your operations. From dairy cows to goats and sheep, this livestock pulsation equipment accommodates various animals, making it a versatile choice for livestock owners and dairy farmers. The durable construction and user-friendly design of the Chuangpu pulsator make it easy to integrate into existing milking systems.

Whether you are looking to upgrade your current milking equipment or starting a new venture in the agricultural sector, the Chuangpu HL-P03 L90 Milking Machine Pulsator is a reliable and efficient choice for enhancing your milking processes. Trust in this industry-leading pulsation device to streamline your milking operations and ensure the well-being of your livestock.

L90 Pneumatic Milk Pulsator

Product name: L90 Pneumatic Milk Pulsator

Product Model: HL-P01

- 1.Three model available
- 2.Effective regulation of pulsation frequency for gentle milking
- 3.Tightly structured, airtight, strong and durable

PRODUCT PARAMETERS

Model: L90 **Pulsator Rate:** 60:40
Material: Plastic Shell **Exit Dia:** 9.5mm
Exits: 2 plastic **Package:** Cartons
Usage: cow/goat milking parts

Model: L90 **Pulsator Rate:** 60:40
Material: Plastic Shell **Exit Dia:** 9.5mm
Exits: 4 plastic **Package:** Cartons
Usage: cow/goat milking parts
