

## LT80 4 Vacuum Ports Adjustable Pneumatic Milking Machine Pulsator Alternating Pulsation Phase

Our Product Introduction

more products please visit us on [mobilemilkingmachine.com](http://mobilemilkingmachine.com)

### Basic Information

- Place of Origin: China
- Brand Name: Chuangpu
- Model Number: HL-P01A LT80
- Minimum Order Quantity: 1 PCS
- Price: Negotiable
- Packaging Details: Carton
- Delivery Time: 3-5 working days
- Payment Terms: T/T, Western Union,
- Supply Ability: 50000PCS /Month

### Product Specification

- Pulsation Ratio Adjustment: Manual
- Pulsation Ratio: 60:40
- Pulsation Rate: 60 Cycles Per Minute
- Type: Pneumatic
- Pulsation Phase: Alternating
- Material: Stainless Steel
- Item: Pneumatic Pulsator
- Type Of Animal: Cow, Sheep, Goat.
- Highlight: **Adjustable Pneumatic Milking Machine Pulsator**  
, **Alternating Pulsation Phase Milking Machine Pulsator**  
, **Pneumatic milking pulsator**

### Product Description:

Introducing the innovative Cow Milking Pulsator, a top-of-the-line Dairy Machine Pulsator designed to optimize the milking process for cows, sheep, and goats. This Animal Pulsation Device boasts a pulsation ratio of 60:40, ensuring gentle and efficient milking for your livestock.

The manual pulsation ratio adjustment feature allows you to customize the pulsation cycle according to your specific needs and preferences. With a pulsation rate of 60 cycles per minute, this milking machine pulsator provides consistent and reliable performance during every milking session.

Equipped with either 2 or 4 vacuum ports, this versatile pulsator offers flexibility in connecting to different milking setups, making it suitable for various dairy farm configurations. Whether you have a small-scale operation or a larger commercial farm, this pulsator can adapt to your requirements.

Designed for use with cows, sheep, and goats, this milking machine pulsator is a must-have tool for dairy farmers looking to streamline their milking process and improve overall efficiency. The gentle pulsation action helps stimulate milk flow while ensuring the comfort of the animals during milking.

Invest in the Cow Milking Pulsator today and experience the benefits of this advanced Dairy Machine Pulsator. Enhance your milking operation with a reliable and effective Animal Pulsation Device that prioritizes both performance and animal welfare. Make milking easier and more efficient with this premium pulsator.

### Features:

Product Name: Milking Machine Pulsator

Material: Stainless Steel

Applicable Industries: Farms, Retail

Pulsation Rate: 60 Cycles Per Minute

Type Of Animal: Cow, Sheep, Goat

Item: Pneumatic Pulsator

### Technical Parameters:

Material	Stainless Steel
Applicable Industries	Farms, Retail
Type Of Animal	Cow, Sheep, Goat
Vacuum Ports	2 Or 4
Pulsation Ratio Adjustment	Manual
Type	Pneumatic
Item	Pneumatic Pulsator
Pulsation Rate	60 Cycles Per Minute
Pulsation	Adjustable
Pulsation Ratio	60:40

### Applications:

The Chuangpu HL-P01A LT80 Milking Machine Pulsator is a versatile and efficient farming machine pulsator designed for udder milking in dairy farms and retail settings. With its high-quality construction and innovative design, this pneumatic pulsator is a reliable and essential tool for dairy farmers looking to streamline their milking process.

Originating from China, this milking machine pulsator is suitable for a wide range of applicable industries, including farms and retail establishments. Its durable build and consistent performance make it ideal for daily use in demanding agricultural environments.

The Chuangpu HL-P01A LT80 features a pulsation rate of 60 cycles per minute, ensuring thorough and efficient milking of dairy cows.

The alternating pulsation phase mimics the natural milking process, promoting gentle and effective milk extraction. Additionally, the

pulsation is adjustable, allowing farmers to customize the pulsation level to suit their specific needs and preferences. Whether you are a small-scale dairy farmer or a large commercial operation, the Chuangpu HL-P01A LT80 Milking Machine Pulsator offers a reliable and cost-effective solution for udder milking. Enhance your milking efficiency and productivity with this high-performance milking machine pulsator that is designed to meet the rigorous demands of modern dairy operations.

### LT80 Pneumatic Milk Pulsator

Product Name: LT80 Pneumatic Milk Pulsator

Product Model: HL-P01A

Product Feature:

1. Two model available
2. Effective regulation of pulsation frequency for gentle milking
3. Tightly structured, airtight, strong and durable

### PRODUCT PARAMETERS

<b>Model:</b> LT80	<b>Pulsator Rate:</b> 60:40	
<b>Material:</b> Plastic Shell	<b>Exit Dia:</b> 9.5mm	
<b>Exits:</b> 2 plastic	<b>Package:</b> Cartons	
<b>Usage:</b> cow/goat milking parts
