

## Optimal Milking Results Milking Machine Pulsator L02 2 Vacuum Ports With Alternating Pulsation Phase

Our Product Introduction

more products please visit us on [mobilemilkingmachine.com](http://mobilemilkingmachine.com)

### Basic Information

- Place of Origin: China
- Brand Name: Chuangpu
- Model Number: HL-P04 L02A
- Minimum Order Quantity: 1 PCS
- Price: Negotiable
- Packaging Details: Carton
- Delivery Time: 3-5 working days
- Payment Terms: T/T, Western Union,
- Supply Ability: 50000PCS /Month

### Product Specification

- Type Of Animal: Cow, Sheep, Goat.
- Material: Stainless Steel
- Pulsation Rate: 60 Cycles Per Minute
- Pulsation Ratio Adjustment: Manual
- Pulsation Phase: Alternating
- Pulsation: Adjustable
- Vacuum Ports: 2 Or 4
- Applicable Industries: Farms, Retail
- Highlight: **2 Vacuum Ports Milking Machine Pulsator, Optimal Results Milking Machine Pulsator, Alternating Pulsation Phase Milking Machine Pulsator**

### Product Description:

Welcome to our product summary for the Livestock Machine Pulsator, specifically designed for milking machines. This advanced Dairy Machine Pulsator is essential for efficient milking processes, suitable for a variety of animals including cows, sheep, and goats.

The Milking Machine Pulsator features either 2 or 4 vacuum ports, providing flexibility in setup and operation to meet different milking requirements. With a pulsation rate of 60 cycles per minute, this Pneumatic Pulsator ensures a gentle and consistent pulsating action during the milking process, promoting better milk flow and udder health.

Constructed from high-quality stainless steel, this Livestock Machine Pulsator is durable, corrosion-resistant, and easy to clean, making it a reliable and long-lasting addition to your milking equipment. The material ensures hygiene standards are maintained and provides a sturdy housing for the internal components.

Designed for use with a variety of animals such as cows, sheep, and goats, this versatile Dairy Machine Pulsator is a must-have tool for modern dairy farms and livestock operations. Its compatibility with different animal types allows for seamless integration into existing milking systems and ensures optimal milking performance.

Whether you are a small-scale farmer or a large commercial dairy operation, the Milking Machine Pulsator offers precision and efficiency in milking processes, helping you streamline your operations and enhance milk production productivity. Its user-friendly design and reliable performance make it a valuable asset for any livestock management setup.

### Features:

Product Name: Milking Machine Pulsator

Type Of Animal: Cow, Sheep, Goat

Pulsation Ratio Adjustment: Manual

Pulsation Rate: 60 Cycles Per Minute

Applicable Industries: Farms, Retail

Pulsation: Adjustable

### Technical Parameters:

Pulsation	Adjustable
Pulsation Ratio	60:40
Material	Stainless Steel
Type	Pneumatic
Type Of Animal	Cow, Sheep, Goat
Pulsation Rate	60 Cycles Per Minute
Item	Pneumatic Pulsator
Pulsation Phase	Alternating
Applicable Industries	Farms, Retail
Vacuum Ports	2 Or 4

### Applications:

The Chuangpu HL-P04 L02A Milking Machine Pulsator is a versatile and efficient animal pulsation device designed for ranching and farming applications. Made from high-quality stainless steel, this pulsator is durable and reliable, making it suitable for use in various environments.

With adjustable pulsation settings and an alternating phase pulsation pattern, the Chuangpu milking machine pulsator provides precise control and gentle stimulation during the milking process. The pulsation rate of 60 cycles per minute ensures optimal milking efficiency and comfort for the animals.

Whether you are operating a small-scale farm or a retail dairy business, this pulsator is ideal for use in a wide range of industries. Its reliable performance and ease of use make it a valuable tool for improving milk production and overall farm efficiency.

From dairy cows to goats and sheep, the Chuangpu milking machine pulsator is compatible with various animals, making it a versatile solution for different farming operations. Its durable construction and adjustable pulsation settings make it suitable for both small and large-scale milking operations.

Bring efficiency and precision to your milking process with the Chuangpu HL-P04 L02A Milking Machine Pulsator. Made in China, this ranching machine pulsator combines quality materials with advanced pulsation technology to meet the needs of modern farms and dairy businesses.

### L02 pneumatic milk pulsator

Product Name: L02 pneumatic milk pulsator

Product Model: HL-P04\HL-P04A

Product Features:

- 1.Four models available
- 2.Effective regulation of pulsation frequency for gentle milking
- 3.Tightly structured, airtight, strong and durable

### PRODUCT PARAMETERS

**Model:** L02      **Pulsator Rate:** 60:40  
**Material:** SS Shell      **Exit Dia:** 9.5mm  
**Exits:** 2 plastic      **Package:** Cartons  
**Usage:** cow/goat milking parts

**Model:** L02      **Pulsator Rate:** 60:40  
**Material:** SS Shell      **Exit Dia:** 9.5mm  
**Exits:** 4 plastic      **Package:** Cartons  
**Usage:** cow/goat milking parts

**Hailian Packaging Equipment Co.,Ltd**
