

L02 Dairy Machine Pulsator Manual Ratio Adjustment Adjustable Pulsation For Optimal Milk Production

Our Product Introduction

more products please visit us on mobilemilkingmachine.com

Basic Information

- Place of Origin: China
- Brand Name: Chuangpu
- Model Number: HL-P04 L02A
- Minimum Order Quantity: 1 PCS
- Price: Negotiable
- Packaging Details: Carton
- Delivery Time: 3-5 working days
- Payment Terms: T/T, Western Union,
- Supply Ability: 50000PCS /Month

Product Specification

- Type Of Animal: Cow, Sheep, Goat.
- Applicable Industries: Farms, Retail
- Vacuum Ports: 2 Or 4
- Material: Stainless Steel
- Pulsation Ratio: 60:40
- Pulsation Phase: Alternating
- Pulsation Rate: 60 Cycles Per Minute
- Pulsation Ratio Adjustment: Manual
- Highlight: **Manual Ratio Adjustment Dairy Machine Pulsator**
, Adjustable Pulsation Dairy Machine Pulsator,
Optimal Milk Production Dairy Machine Pulsator

Product Description:

The Ranching Machine Pulsator is an essential component of livestock pulsation equipment, specifically designed for bovine milking operations. With a pulsation rate of 60 cycles per minute, this milking machine pulsator ensures efficient and gentle milking processes for dairy farmers.

Constructed from high-quality stainless steel, the pulsator is durable and resistant to corrosion, making it suitable for long-term use in demanding farm environments. Its adjustable pulsation feature allows users to customize the pulsation rate according to their specific requirements, ensuring optimal milking performance and animal comfort.

The pulsation phase of this bovine milking pulsator is alternating, mimicking the natural milking rhythm of cows to improve milk flow and udder health. Additionally, the manual pulsation ratio adjustment enables farmers to fine-tune the pulsation cycle to achieve the desired milking outcomes.

Whether you are a small-scale dairy farmer or managing a large commercial operation, the Ranching Machine Pulsator offers reliability and precision in milking processes. Its user-friendly design and robust construction make it a valuable asset for enhancing productivity and milk quality on the farm.

Features:

Product Name: Milking Machine Pulsator

Pulsation Phase: Alternating

Pulsation Ratio Adjustment: Manual

Applicable Industries: Farms, Retail

Pulsation Ratio: 60:40

Material: Stainless Steel

Technical Parameters:

Pulsation	Adjustable
Pulsation Phase	Alternating
Type	Pneumatic
Pulsation Ratio	60:40
Pulsation Rate	60 Cycles Per Minute
Item	Pneumatic Pulsator
Vacuum Ports	2 Or 4
Material	Stainless Steel
Pulsation Ratio Adjustment	Manual
Applicable Industries	Farms, Retail

Applications:

The Chuangpu Milking Machine Pulsator, model HL-P04 L02A, is a versatile livestock machine pulsator designed for various milking scenarios. With a place of origin in China, this pneumatic pulsator offers efficient pulsation at a rate of 60 cycles per minute, making it ideal for use in milking cows, sheep, and goats.

Whether you are a small-scale farmer or a large dairy operation, this animal pulsation device is suitable for a range of applications. The Chuangpu Milking Machine Pulsator is perfect for dairy farms looking to streamline their milking process and improve overall efficiency. Equipped with 2 or 4 vacuum ports, this pneumatic pulsator can be customized to meet the specific needs of your milking setup. The dual-port configuration allows for simultaneous milking of multiple animals, while the quad-port option provides even greater flexibility for larger herds.

Whether you are milking a small herd of goats or a large herd of cows, the Chuangpu Milking Machine Pulsator is designed to deliver reliable performance and consistent pulsation. Its durable construction ensures long-lasting use, even in demanding agricultural

environments.
For dairy farmers looking to enhance their milking operation with a high-quality animal pulsation device, the Chuangpu Milking Machine Pulsator is the perfect choice. Trust in the brand name, Chuangpu, and the proven model HL-P04 L02A to meet your milking needs effectively and efficiently.

L02 pneumatic milk pulsator

Product Name: L02 pneumatic milk pulsator
Product Model: HL-P04\HL-P04A
Product Features:
1.Four models available
2.Effective regulation of pulsation frequency for gentle milking
3.Tightly structured, airtight, strong and durable

PRODUCT PARAMETERS

Model: L02 **Pulsator Rate:** 60:40
Material: SS Shell **Exit Dia:** 9.5mm
Exits: 2 plastic **Package:** Cartons
Usage: cow/goat milking parts

Model: L02 **Pulsator Rate:** 60:40
Material: SS Shell **Exit Dia:** 9.5mm
Exits: 4 plastic **Package:** Cartons
Usage: cow/goat milking parts
