

## Increase Productivity Retail Sheep Milking Machine Pulsator L80 Air 4 Vacuum Ports

### Our Product Introduction

more products please visit us on [mobilemilkingmachine.com](http://mobilemilkingmachine.com)

#### Basic Information

- Place of Origin: China
- Brand Name: Chuangpu
- Model Number: HL-P04C L80 Air
- Minimum Order Quantity: 1 PCS
- Price: Negotiable
- Packaging Details: Carton
- Delivery Time: 3-5 working days
- Payment Terms: T/T, Western Union,
- Supply Ability: 50000PCS /Month

#### Product Specification

- Pulsation Ratio Adjustment: Manual
- Material: Plastic
- Vacuum Ports: 2 Or 4
- Applicable Industries: Farms, Retail
- Type: Pneumatic
- Pulsation Phase: Alternating
- Type Of Animal: Cow, Sheep, Goat.
- Pulsation Ratio: 60:40
- Highlight: Air Retail Sheep Milking Machine Pulsator, L80 Retail Sheep Milking Machine Pulsator, Increase Productivity Milking Machine Pulsator

### Product Description:

The Bovine Milking Pulsator is an essential piece of livestock pulsation equipment designed for efficient milking processes. Made from durable plastic material, this pulsator is suitable for cows, sheep, and goats, providing a versatile solution for dairy farmers.

One of the key features of this cow milking pulsator is its alternating pulsation phase, which mimics the natural sucking pattern of young animals, ensuring gentle and effective milking. The pulsation rate of 60 cycles per minute offers optimal milking speed, promoting milk let-down and improving overall milking efficiency.

Designed as a pneumatic device, this milking machine pulsator operates smoothly and quietly, minimizing stress on the animals during milking sessions. The pneumatic mechanism enables consistent pulsation, resulting in thorough and complete milk extraction with each cycle.

Whether you are milking cows, sheep, or goats, this versatile pulsator is compatible with a range of dairy animals, making it a practical choice for farmers with diverse livestock. The durable plastic construction ensures long-lasting performance, making this pulsator a reliable and cost-effective investment for your milking operation.

With the Bovine Milking Pulsator, you can streamline your milking process, increase milk production, and ensure the comfort and well-being of your animals. Invest in this cow milking pulsator today and experience the benefits of efficient and gentle milking for your dairy farm.

### Features:

Product Name: Milking Machine Pulsator

Pulsation: Adjustable

Pulsation Ratio: 60:40

Pulsation Rate: 60 Cycles Per Minute

Material: Plastic

Applicable Industries: Farms, Retail

### Technical Parameters:

Type Of Animal	Cow, Sheep, Goat
Applicable Industries	Farms, Retail
Pulsation Ratio Adjustment	Manual
Pulsation	Adjustable
Material	Plastic
Vacuum Ports	2 Or 4
Type	Pneumatic
Pulsation Rate	60 Cycles Per Minute
Item	L80 Air Pneumatic Pulsator
Pulsation Phase	Alternating

### Applications:

Chuangpu's HL-P04C L80 Air Ranching Machine Pulsator is a versatile and essential component for milking machines used in dairy farms and agricultural settings. Manufactured in China, this pulsator is designed to enhance the milking process and improve overall efficiency. The HL-P04C L80 Air model features 2 or 4 vacuum ports, providing flexibility in setup and accommodating different milking machine configurations. Made from durable plastic, this pulsator is built to withstand the demanding conditions of a busy farm environment. Specifically designed for dairy machines, the L80 Air Pneumatic Pulsator by Chuangpu offers a pulsation ratio of 60:40, ensuring optimal milking performance. The alternating pulsation phase mimics the natural sucking pattern of a calf, resulting in gentle and efficient milking process.

Whether you are operating a small-scale dairy farm or a large commercial operation, the HL-P04C L80 Air Ranching Machine Pulsator is

suitable for various milking applications. It can be seamlessly integrated into existing milking equipment, providing a reliable and consistent pulsation performance. From extracting milk from cows to goats, this milking machine pulsator plays a crucial role in maintaining the productivity and well-being of your livestock. Its high-quality construction and precise pulsation settings make it a valuable asset for dairy farmers looking to streamline their milking process.

### L80AIR pneumatic milk pulsator

Product Name: L80AIR pneumatic milk pulsator

Product Model: HL-P04C

Product Feature:

1. Two model available
2. Effective regulation of pulsation frequency for gentle milking
3. Tightly structured, airtight, strong and durable

### PRODUCT PARAMETERS

<b>Model:</b> L80 Air	<b>Pulsator Rate:</b> 60:40	
<b>Material:</b> Plastic Shell	<b>Exit Dia:</b> 9.5mm	
<b>Exits:</b> 2 plastic	<b>Package:</b> Cartons	
<b>Usage:</b> cow/goat milking parts		

  

	<b>Model:</b> L80 Air	<b>Pulsator Rate:</b> 60:40
	<b>Material:</b> Plastic Shell	<b>Exit Dia:</b> 9.5mm
	<b>Exits:</b> 4 plastic	<b>Package:</b> Cartons
	<b>Usage:</b> cow/goat milking parts
