

High Productivity Electric Milking Machine Pulsator LE20 4 Ports With Interpulse Technology

Our Product Introduction

more products please visit us on mobilemilkingmachine.com

Basic Information

- Place of Origin: China
- Brand Name: Chuangpu
- Model Number: HL-P06A LE20
- Minimum Order Quantity: 1 PCS
- Price: Negotiable
- Packaging Details: Carton
- Delivery Time: 3-5 working days
- Payment Terms: T/T, Western Union,
- Supply Ability: 50000PCS /Month

Product Specification

- Voltage: 24V
- Key Selling Points: High Productivity
- Pulsation Speed: Adjustable
- Rate: Adjustable
- Theory: Electric
- Model Numbe: HL-P06A
- Item: LE20 Electric Milking Pulsator
- Type: Interpulse, Electric
- Highlight: **Interpulse Technology Electric Milking Machine Pulsator**
, 4 Ports Electric Milking Machine Pulsator ,
High Productivity Electric Milking Machine Pulsator

Product Description:

One of the key selling points of the LE20 Electric Milking Pulsator is its high productivity. This pulsator is engineered to deliver efficient and consistent pulsation, ensuring optimal milk flow and extraction during the milking process. Livestock owners can rely on this pulsator to help streamline their milking operations and maximize productivity.

Designed as an Interpulse, Electric type pulsator, the LE20 offers advanced features and functionality for enhanced milking performance. The pulsation ratio of 60:40 or 50:50 provides flexibility in adjusting the pulsation pattern according to specific milking needs and preferences. This customizable pulsation control allows users to optimize the milking process for different types of livestock, ensuring gentle and effective milk extraction.

Featuring adjustable pulsation control, the LE20 Electric Milking Pulsator enables users to fine-tune the pulsation settings to suit their individual requirements. This level of control ensures that the pulsation rate and intensity can be easily adjusted to achieve the desired milking results. Livestock owners can rely on the precision and reliability of this pulsator to provide consistent and efficient milking performance.

The LE20 Electric Milking Pulsator is a versatile and reliable farming machine pulsator that offers exceptional performance and durability. Whether used in small-scale dairy farms or large commercial operations, this pulsator delivers consistent results and helps optimize the milking process for improved efficiency and productivity. Livestock owners can trust the LE20 to enhance their milking operations and ensure the well-being of their animals.

In conclusion, the LE20 Electric Milking Pulsator is a top-of-the-line livestock machine pulsator that combines high productivity, advanced features, and user-friendly design to meet the needs of modern farming operations. With its adjustable pulsation control, customizable pulsation ratio, and reliable performance, this pulsator is a valuable asset for any livestock owner looking to enhance their milking process and maximize productivity. Invest in the LE20 Electric Milking Pulsator today and experience the difference it can make in your farm or dairy operation.

Features:

Product Name: Milking Machine Pulsator

Rate: Adjustable

Key Selling Points: High Productivity

Ratio: Adjustable

Type: Interpulse, Electric

Model Number: HL-P06A

Technical Parameters:

Key Selling Points	High Productivity
Ratio	Adjustable
Port	2 Or 4 Outlets
Item	LE20 Electric Milking Pulsator
Pulsation Speed	Adjustable
Use	Milking Electronic Pulsator
Pulsation Ratio	60:40 / 50:50
Type	Interpulse, Electric
Model Number	HL-P06A
Voltage	24V

Applications:

When it comes to dairy farming and milk production, the Milking Machine Pulsator from Chuangpu is a crucial tool that offers high productivity and efficiency. Designed with the model number HL-P06A LE20, this electric pulsator is a reliable solution for bovine milking

scenarios.

Originating from China, this pulsator boasts 2 or 4 outlets, providing flexibility in its application. The HL-P06A model is known for its adjustable ratio, allowing farmers to customize the milking process according to their needs.

The Chuangpu HL-P06A LE20 Electric Milking Pulsator is ideal for various milking occasions and scenarios. Whether it's udder milking pulsator for dairy cows or other bovine species, this product ensures a smooth and efficient milking process.

One of the key selling points of this pulsator is its high productivity. Farmers can rely on this pulsator to streamline their milking operations and increase overall output. The durable construction and reliable performance make it a valuable addition to any dairy farm.

LE20 Electric Milk Pulsator

Product Name: LE20 electric milk pulsator
Product Model: HL-P06A
Product Feature:

- 1. Two models available
- 2. Effective regulation of pulsation frequency for gentle milking
- 3. Spiral base is more convenient to install and fix

PRODUCT PARAMETERS

Model: LE20	Pulsator Rate: 60:40
Material: Plastic Shell	Exit Dia: 10mm
Exits: 2 plastic	Voltage: 24V
Usage: cow/goat milking parts	Package: Cartons

Model: LE20	Pulsator Rate: 60:40
Material: Plastic Shell	Exit Dia: 10mm
Exits: 4 plastic	Voltage: 24V
Usage: cow/goat milking parts	Package: Cartons
