

## 2 Ports Electric Milking Machine Pulsator LE30 Ideal For Large Scale Milking Operations

Our Product Introduction

more products please visit us on [mobilemilkingmachine.com](http://mobilemilkingmachine.com)

### Basic Information

- Place of Origin: China
- Brand Name: Chuangpu
- Model Number: HL-P06B LE30
- Minimum Order Quantity: 1 PCS
- Price: Negotiable
- Packaging Details: Carton
- Delivery Time: 3-5 working days
- Payment Terms: T/T, Western Union,
- Supply Ability: 50000PCS /Month

### Product Specification

- Key Selling Points: High Productivity
- Model Numbe: HL-P06B
- Port: 2 Or 4 Outlets
- Theory: Electric
- Rate: Adjustable
- Voltage: 24V
- Pulsation Ratio: 60:40 / 50:50
- Item: LE30 Electric Milking Pulsator
- Highlight: **Large Scale Milking Pulsator, Large-Scale Milking Machine Pulsator, 2 Ports Milking Machine Pulsator**

### Product Description:

The Milking Machine Pulsator is a cutting-edge device designed to enhance the milking process for dairy farmers. With its adjustable rate and pulsation speed, this pulsator offers unparalleled control and customization for efficient milking operations. Whether you are milking cows or other dairy animals, this pulsator ensures a smooth and effective milking experience.

One of the standout features of the Milking Machine Pulsator is its waterproof and moisture-proof design. This ensures durability and longevity, even in challenging milking environments. Farmers can trust that this pulsator will continue to perform reliably, regardless of the conditions it is exposed to.

With pulsation ratio options of 60:40 and 50:50, the Milking Machine Pulsator provides flexibility to suit different milking preferences and animal needs. This versatility allows farmers to optimize the milking process based on their specific requirements, leading to improved efficiency and productivity.

When it comes to key selling points, the Milking Machine Pulsator excels in offering high productivity. Its adjustable rate and pulsation speed, combined with the customizable pulsation ratios, enable farmers to maximize milk output while maintaining animal comfort. This results in a more efficient milking operation and ultimately higher yields for the farm.

Whether you are looking for a reliable Udder Milking Pulsator or a high-performance Cow Milking Pulsator, the Milking Machine Pulsator is the ideal choice. Its advanced features, including adjustable rate and pulsation speed, waterproof design, and multiple pulsation ratios, make it a valuable addition to any dairy farm seeking to optimize their milking process.

### Features:

Product Name: Milking Machine Pulsator

Voltage: 24V

Pulsation Speed: Adjustable

Theory: Electric

Item: LE30 Electric Milking Pulsator

Pulsation Ratio: 60:40 / 50:50

### Technical Parameters:

Key Selling Points	High Productivity
Use	Milking Electronical Plusator
Item	LE30 Electric Milking Pulsator
Pulsation Ratio	60:40 / 50:50
Rate	Adjustable
Model Number	HL-P06B
Ratio	Adjustable
Theory	Electric
Voltage	24V
Type	Interpulse, Electric

### Applications:

The Chuangpu HL-P06B LE30 Dairy Machine Pulsator, originating from China, is a versatile piece of equipment designed for electronic milking applications. This advanced pulsator, model number LE30, is specifically engineered for bovine milking, offering high productivity and efficiency.

With adjustable pulsation control, this Dairy Machine Pulsator provides users with the flexibility to customize the milking process according to specific requirements. The 24V voltage ensures reliable and consistent performance, making it suitable for various dairy farming operations.

The Chuangpu HL-P06B LE30 Dairy Machine Pulsator is ideal for a wide range of milking scenarios and occasions. Whether used in

small-scale dairy farms or large commercial operations, this milking pulsator enhances productivity and streamlines the milking process. Farmers can rely on the LE30 Electric Milking Pulsator to deliver efficient pulsation during milking, contributing to increased milk yield and overall operational efficiency. Its durable construction and high-quality design make it a dependable tool for daily milking routines. Whether milking cows, goats, or other dairy animals, the Chuangpu HL-P06B LE30 Dairy Machine Pulsator is a valuable asset that simplifies the milking process and ensures optimal results. Its adjustable pulsation settings cater to different animal breeds and individual milking preferences, offering a customizable solution for dairy farmers.

### LE30 Electric Milk Pulsator

Product Name: LE30 electric milk pulsator  
Product Model: HL-P06B  
Product Feature:  
1. Two models available  
2. Effective regulation of pulsation frequency for gentle milking  
3. Spiral base is more convenient to install and fix

### PRODUCT PARAMETERS

**Model:** LE30

**Material:** Plastic Shell

**Exits:** 2 plastic

**Usage:** cow/goat milking parts

**Pulsator Rate:** 60:40

**Exit Dia:** 10mm

**Voltage:** 24V

**Package:** Cartons

**Model:** LE30

**Material:** Plastic Shell

**Exits:** 4 plastic

**Usage:** cow/goat milking parts

**Pulsator Rate:** 60:40

**Exit Dia:** 10mm

**Voltage:** 24V

**Package:** Cartons

**Hailian Packaging Equipment Co.,Ltd**
