

HL-P06C Boumatic Milking Machine Pulsator 65 35 Ratio for Improved Milking Efficiency

Our Product Introduction

more products please visit us on mobilemilkingmachine.com

Basic Information

- Place of Origin: China
- Brand Name: Chuangpu
- Model Number: HL-P06C Boumatic
- Minimum Order Quantity: 1 PCS
- Price: Negotiable
- Packaging Details: Carton
- Delivery Time: 3-5 working days
- Payment Terms: T/T, Western Union,
- Supply Ability: 50000PCS /Month

Product Specification

- Vacuum Port: 10.5mm
- Model Numbe: HL-P06C Boumatic
- Use: Milking Machine System
- Weight: 350g
- Ports: 2 Ports Electric Pulsator
- Theory: Electric
- Color: Blue And White
- Ratio: 65:35
- Highlight: Improved Efficiency Boumatic Milking Machine Pulsator

Electric Theory Boumatic Milking Machine Pulsator

65/35 Ratio Boumatic Milking Machine Pulsator

Product Description:

The Milking Machine Pulsator is an essential piece of Livestock Pulsation Equipment designed to enhance the milking process for cows, sheep, and goats. With a striking color combination of blue and white, this Udder Milking Pulsator weighs 350g, making it lightweight and easy to handle during milking sessions.

Featuring a ratio of 65:35, this Bovine Milking Pulsator ensures efficient pulsation cycles, contributing to a smooth and effective milking experience. Its versatile design allows it to be used with various types of animals, including cows, sheep, and goats, making it a valuable addition to any Milking Machine System.

Features:

Bovine-Milking Pulsator

Animal Pulsation Device

Udder Milking Pulsator

Product Name: Milking Machine Pulsator

Model Number: HL-P06C Boumatic

Type of Animal: Cow, Sheep, Goat

Color: Blue And White

Theory: Electric

Ports: 2 Ports Electric Pulsator

Technical Parameters:

Use	Milking Machine System
Condition	New
Ratio	65:35
Type Of Animal	Cow, Sheep, Goat
Model Number	HL-P06C Boumatic
Theory	Electric
Weight	350g
Color	Blue And White
Vacuum Port	10.5mm
Ports	2 Ports Electric Pulsator

Applications:

The Milking Machine Pulsator, model HL-P06C Boumatic by Chuangpu, is a cutting-edge Livestock Pulsation Equipment designed for efficient and hygienic udder milking processes. This product is new and originates from China, ensuring high-quality manufacturing standards.

With a ratio of 65:35, this Milking Machine Pulsator is optimized for use with various animals such as cows, sheep, and goats, making it a versatile tool for dairy farmers. The 10.5mm vacuum port enables a strong and consistent suction power, essential for thorough and gentle milking sessions.

The blue and white color combination of this pulsator adds a modern touch to the milking setup, enhancing the visual appeal of the equipment. Whether in a small-scale farm or a commercial dairy operation, the Chuangpu Milking Machine Pulsator is a reliable choice for ensuring proper udder health and milk extraction.

Recommended Product Application Occasions and Scenarios:

Small-Scale Dairy Farms: The compact design and efficient pulsation of this equipment make it ideal for small dairy farms looking to streamline their milking process.

Commercial Dairy Operations: With its durable construction and high performance, this Milking Machine Pulsator is suitable for large-scale dairy operations seeking to maximize productivity.

Animal Husbandry Exhibitions: Showcase the advanced technology of the Chuangpu Milking Machine Pulsator at livestock events to demonstrate modern milking practices.

Research Facilities: Researchers studying dairy production and udder health can benefit from the precision and reliability of this pulsator

Electric Milk Pulsator

product name: electric milk pulsator[®]
product Model: HL-P06C
Product Feature:
1. Advanced design techniques
2. Effective regulation of pulsation frequency for gentle milking
3. Tightly structured, airtight, strong and durable

PRODUCT PARAMETERS

Model: P06C	Exit Dia: 10.5mm
Material: Plastic Shell	Voltage: 24V
Pulsator Rate: 60:40	Package: Cartons
Usage: cow/goat milking parts	

for their experiments.
