

LP30 Electric Milking Machine Pulsator 60/40 Ratio For Consistent Milking Performance

Our Product Introduction

more products please visit us on mobilemilkingmachine.com

Basic Information

- Place of Origin: China
- Brand Name: Chuangpu
- Model Number: HL-P06D LP30
- Minimum Order Quantity: 1 PCS
- Price: Negotiable
- Packaging Details: Carton
- Delivery Time: 3-5 working days
- Payment Terms: T/T, Western Union,
- Supply Ability: 50000PCS /Month

Product Specification

- Usage: Cow Milking System
- Condition: New
- Application: Dairy Farming
- Name: LP30 Electric Milking Pulsator
- Ratio: 60:40 / 50:50
- Pulsation: Adjustable
- Voltage: 24V
- Material: Plastic
- Highlight: **LP30 Electric Milking Machine Pulsator, Consistent Milking Performance Pulsator, pulsator for milking Performance**

Product Description:

Constructed from high-quality plastic material, this electric pulsator is built to withstand the rigors of daily use on the farm. Its durable construction ensures longevity and consistent performance, making it a valuable investment for dairy farmers.

The adjustable pulsation feature of this farming machine pulsator allows users to customize the pulsation ratio according to their specific needs. With ratio options of 60:40 or 50:50, farmers can optimize the milking process for different types of dairy animals, ensuring gentle and efficient milking every time.

Backed by a one-year warranty, customers can have peace of mind knowing that this milking machine pulsator is covered against any potential manufacturing defects or malfunctions. The warranty serves as a testament to the product's quality and reliability, offering customers added assurance of its performance.

Whether you are a small-scale dairy farmer or managing a larger operation, this electric pulsator is designed to streamline the milking process and enhance overall efficiency on the farm. Its adjustable pulsation settings, durable plastic construction, and one-year warranty make it a top choice for those seeking reliable and high-performing milking equipment.

Features:

Product Name: Milking Machine Pulsator

Packing: Carton Box

Application: Dairy Farming

Material: Plastic

Key Selling Points: High Productivity

Ratio: 60:40 / 50:50

Technical Parameters:

Key Selling Points	High Productivity
Type	Electric
Usage	Cow Milking System
Application	Dairy Farming
Name	LP30 Electric Milking Pulsator
Vacuum Port	9.5mm
Warranty	One Year
Pulsation	Adjustable
Condition	New
Voltage	24V

LP 30 Electric Milk Pulsator

Product Name: LP30 electric milk pulsator

Product Model: HL-P06D

Product Feature:

1. Two models available
2. Effective regulation of pulsation frequency for gentle milking
3. Spiral base is more convenient to install and fix

PRODUCT PARAMETERS

Model: LP30	Pulsator Rate: 60:40	
Material: Plastic Shell	Exit Dia: 10mm	
Exits: 2 plastic	Voltage: 24V	
Usage: cow/goat milking parts	Package: Cartons	

	Model: LP30	Pulsator Rate: 60:40
	Material: Plastic Shell	Exit Dia: 10mm
	Exits: 4 plastic	Voltage: 24V
	Usage: cow/goat milking parts	Package: Cartons

Applications:

The Chuangpu HL-P06D LP30 Bovine Milking Pulsator is a must-have tool for dairy farming operations seeking high productivity. Designed and manufactured in China, this pulsator is made from durable plastic, ensuring a long service life in demanding farming environments.

With a voltage of 24V, the Chuangpu milking machine pulsator is suitable for cow milking systems in various dairy farm settings. Its efficient pulsation action helps optimize the milking process, leading to increased productivity and efficiency.

Whether you are operating a small-scale dairy farm or a large commercial operation, this Farming Machine Pulsator from Chuangpu delivers consistent performance, making it an essential component of any modern dairy machine setup.

The Dairy Machine Pulsator is easy to install and compatible with different milking machine configurations, providing versatility and convenience to dairy farmers. Its reliable operation ensures a smooth milking process, contributing to the overall success of the dairy operation.

Key Selling Points:

High Productivity: The Chuangpu HL-P06D LP30 Bovine Milking Pulsator enhances productivity by optimizing the milking process.

Whether you are looking to upgrade your existing milking equipment or setting up a new cow milking system, the Chuangpu HL-P06D LP30 Bovine Milking Pulsator is a reliable and efficient choice for dairy farmers aiming to improve their operations.
