

Milking Machine LP30 Electric Pulsator With 9.5mm Vacuum Port And High Efficiency

Our Product Introduction

more products please visit us on mobilemilkingmachine.com

Basic Information

- Place of Origin: China
- Brand Name: Chuangpu
- Model Number: HL-P06D LP30
- Minimum Order Quantity: 1 PCS
- Price: Negotiable
- Packaging Details: Carton
- Delivery Time: 3-5 working days
- Payment Terms: T/T, Western Union,
- Supply Ability: 50000PCS /Month

Product Specification

- Name: LP30 Electric Milking Pulsator
- Pulsation: Adjustable
- Packing: Carton Box
- Application: Dairy Farming
- Vacuum Port: 9.5mm
- Voltage: 24V
- Ratio: 60:40 / 50:50
- Warranty: One Year
- Highlight: Electric milking pulsator,
9.5mm Vacuum Port milking pulsator,
High Efficiency milking pulsator

Product Description:

With a focus on high productivity, this Dairy Machine Pulsator is built to deliver consistent pulsation rates, ensuring thorough and gentle milking of cows. The pulsator plays a crucial role in regulating the milking cycle, mimicking the natural sucking action of calves to stimulate milk flow and prevent overmilking.

One of the key selling points of this milking machine pulsator is its ability to improve overall milking efficiency, saving time and labor costs for dairy farmers. By maintaining optimal pulsation settings, this device helps maximize milk yield while ensuring the well-being of the cows.

Each Bovine Milking Pulsator comes with a one-year warranty, providing peace of mind to farmers and guaranteeing the quality and durability of the product. The pulsator is designed to withstand the rigors of daily use on the farm, contributing to its longevity and reliability.

When it comes to packaging, this Dairy Machine Pulsator is securely enclosed in a durable carton box, protecting it from any potential damage during shipping and handling. The packaging is designed to ensure that the pulsator reaches its destination in perfect condition, ready to be installed and used right away.

Features:

Product Name: Milking Machine Pulsator

Material: Plastic

Usage: Cow Milking System

Voltage: 24V

Type: Electric

Pulsation: Adjustable

Technical Parameters:

Application	Dairy Farming
Material	Plastic
Type	Electric
Condition	New
Ratio	60:40 / 50:50
Usage	Cow Milking System
Name	LP30 Electric Milking Pulsator
Key Selling Points	High Productivity
Pulsation	Adjustable
Warranty	One Year

Applications:

The Chuangpu HL-P06D LP30 Milking Machine Pulsator is a new product designed for the dairy farming industry, originating from China. This udder milking pulsator is specifically created to enhance the efficiency and productivity of cow milking systems in dairy farms.

With a ratio of 60:40 or 50:50, this pulsator ensures optimal performance in various milking scenarios. Its key selling point lies in its ability to significantly increase the milking process's productivity, making it an essential component for modern dairy operations.

The Milking Machine Pulsator is suitable for a wide range of application occasions and scenarios in dairy farming. It is ideal for use in large-scale dairy farms where a high level of efficiency and precision is required. The pulsator can be integrated seamlessly into existing farming machine systems, providing a reliable and consistent milking experience.

Whether it is for routine milking tasks or specialized milking processes, the Chuangpu HL-P06D LP30 Milking Machine Pulsator delivers consistent results and ensures the well-being of the livestock. Its innovative design and dependable performance make it a valuable asset for dairy farmers looking to optimize their operations.

LP 30 Electric Milk Pulsator

Product Name: LP30 electric milk pulsator

Product Model: HL-P06D

Product Feature:

1. Two models available
2. Effective regulation of pulsation frequency for gentle milking
3. Spiral base is more convenient to install and fix

PRODUCT PARAMETERS

Model: LP30	Pulsator Rate: 60:40	
Material: Plastic Shell	Exit Dia: 10mm	
Exits: 2 plastic	Voltage: 24V	
Usage: cow/goat milking parts	Package: Cartons	

	Model: LP30	Pulsator Rate: 60:40
	Material: Plastic Shell	Exit Dia: 10mm
	Exits: 4 plastic	Voltage: 24V
	Usage: cow/goat milking parts	Package: Cartons
