

Revolutionize Dairy Farming Operation Milking Machine Electric Pulsator EP100

Our Product Introduction

more products please visit us on mobilemilkingmachine.com

Basic Information

- Place of Origin: China
- Brand Name: Chuangpu
- Model Number: HL-P06H Delaval
- Minimum Order Quantity: 1 PCS
- Price: Negotiable
- Packaging Details: Carton
- Delivery Time: 3-5 working days
- Payment Terms: T/T, Western Union,
- Supply Ability: 50000PCS /Month

Product Specification

- Weight: 350G
- Ratio: 60:40
- Theory: Electric
- Packing: Carton Box
- Name: EP100 Electric Pulsator
- Frequency: Adjustable
- Vacuum Ports: 2 Ports
- Port Dia.: 10mm
- Highlight: **Milking Machine Electric Pulsator,
Electric Pulsator for Milking Machine,
Dairy Farming Milking Machine Pulsator**

Product Description:

With compatibility for both 12V and 24V voltages, this pulsator offers versatility and convenience for various milking machine setups. The 10mm port diameter provides a secure and stable connection, allowing for seamless integration with the milking equipment.

Weighing just 350g, the Milking Machine Pulsator is lightweight yet durable, making it easy to handle and install. Its compact design makes it a space-saving solution for dairy farmers looking to maximize efficiency in their milking operations.

Designed specifically for use with milking machines, the Milking Machine Pulsator is also commonly referred to as the Udder Milking Pulsator or Farming Machine Pulsator. Its precise pulsation mechanism helps stimulate milk flow from the udder, ensuring thorough and gentle milking of the livestock.

Whether you are a small-scale dairy farmer or managing a larger operation, the Milking Machine Pulsator is a must-have accessory to streamline your milking process. By investing in this high-quality pulsator, you can improve the productivity and welfare of your animals while simplifying the milking routine for yourself.

Experience the convenience and efficiency of the Milking Machine Pulsator today and elevate your dairy farming operation to new heights. Trust in its electric theory, dual voltage compatibility, and robust construction to enhance the milking experience for both you and your livestock.

Features:

Product Name: Milking Machine Pulsator

Weight: 350G

Theory: Electric

Usage: For Milking Machine

Application: Dairy Farming

Voltage: 12V, 24V

Technical Parameters:

Usage	For Milking Machine
Voltage	12V, 24V
Application	Dairy Farming
Material	Plastic
Packing	Carton Box
Port Dia.	10mm
Key Selling Points	High Productivity
Weight	350g
Ratio	60:40
Vacuum Ports	2 Ports

Applications:

The Chuangpu HL-P06H Delaval Livestock Machine Pulsator, also known as the EP100 Electric Pulsator, is a high-quality product designed for milking machines. Manufactured in China, this pulsator is specifically crafted for efficient use in farming environments. With a port diameter of 10mm, this pulsator ensures a smooth and effective milking process. Its key selling point lies in its high productivity, making it an essential component for any modern milking operation.

The Milking Machine Pulsator from Chuangpu is versatile and can be used in various product application occasions and scenarios:
 Small Dairy Farms: Ideal for small-scale dairy farmers looking to enhance their milking process.

Large Commercial Dairy Farms: Suitable for large-scale operations where high productivity is essential for profitability.

Agricultural Cooperatives: Perfect for cooperatives looking to streamline their milking operations and improve overall efficiency.

Livestock Shows and Exhibitions: A reliable pulsator for showcasing livestock and demonstrating efficient milking practices.

Packaged in a sturdy carton box, the Chuangpu HL-P06H Delaval Milking Machine Pulsator is easy to store and transport, ensuring its safety during handling and delivery.

Electric Milk Pulsator / Electric Valve

product name: Electric milk pulsator
Electric Valve

product Model: HL-P06G/HL-P06H

Product Feature:

1. Two models available
2. Tightly structured, airtight, strong and durable

PRODUCT PARAMETERS

Product name	Electric Milk Pulsator	Electric Milk Pulsator
Appearance		
Model	HL-P06G	HL-P06H
Material	塑料	塑料
Exits	Φ10mm	Φ10mm
Pulsator Rate	60:40	60:40
Voltage	12V/24	12V/24
Power consumption (12V)	0.60A/0.30A	0.60A/0.30A
