### Product Description:

The Milking Machine Liners are essential cow milking accessories designed to enhance the efficiency of your livestock milking mechanism. This product package includes 4 pieces of durable liners, each capable of withstanding up to 2500 milking times, ensuring a long service life and reliable performance.

Specifically crafted for milk extraction, these milking machine liners feature a teat cup size of 155mm in length, 44mm in diameter, and 19mm in opening size. The cylindrical shape of the liners provides a secure fit for the teats, allowing for efficient and gentle milking process.

Whether you are a professional dairy farmer or a hobbyist, these milking machine liners are an indispensable part of your cattle teat cylinder setup. With their high-quality construction and precise dimensions, you can trust these liners to deliver consistent results and optimal milk extraction every time.

### Features:

Product Name: Milking Machine Liners

Package Quantity: 4 Pieces

Resistance: Chemical And Abrasion

Design: Ribbed

Function: Milk Extraction

Animal: Cow

### Technical Parameters:

|                  |                     |

| Durability       | Long-lasting        |
| Function         | Milk Extraction     |

### Applications:

The Chuangpu GM068 Milking Liner is a high-quality product designed for use in Livestock Milking Supplies. With its cylindrical shape and high flexibility, this milking machine liner is perfect for milk extraction tubes in various cattle milking components.

Manufactured in China, the GM068 Milking Liner by Chuangpu is known for its durability and reliability. It is resistant to both chemical agents and abrasion, making it a long-lasting solution for dairy farmers and milk processing facilities.

Whether you are milking cows, goats, or sheep, the GM068 Milking Liner is a versatile product that can handle the demands of daily milking operations. Its black color not only gives it a sleek appearance but also helps in easy maintenance and cleaning.

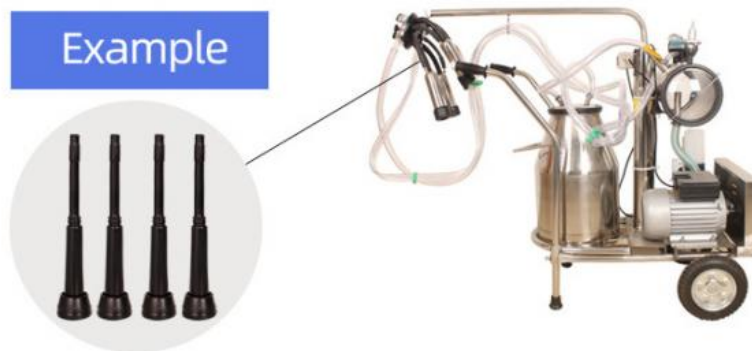

From small-scale dairy farms to large commercial operations, this milking machine liner is suitable for a wide range of milking machines. Its high flexibility ensures a snug fit and efficient milk extraction, resulting in improved productivity and milk quality.

Whether you are replacing old liners or upgrading your milking equipment, the Chuangpu GM068 Milking Liner is a reliable choice that will meet your needs and exceed your expectations. Invest in this top-quality product for a seamless milking process and optimal milk production.
