

Highly Durable Customizable 201S Dairy Milking Machine Liner MW21U For Cow

Our Product Introduction

more products please visit us on mobilemilkingmachine.com

Basic Information

- Place of Origin: China
- Brand Name: Chuangpu
- Model Number: 201S
- Minimum Order Quantity: 1 Bag
- Price: Negotiable
- Packaging Details: Carton
- Delivery Time: 3-5 working days
- Payment Terms: T/T, Western Union,
- Supply Ability: 50000BAG /Month

Product Specification

- Function: Milk Extraction
- Resistance: Chemical And Abrasion
- Service Life: 2500 Milking Times
- Shape: Cylindrical
- Design: Ribbed
- Teat Cup Size: 148mm/44mm/20mm
- Package Quantity: 4 Pieces
- Cleaning Method: Washable
- Highlight: Customizable Dairy Milking Machine Liner, Cow Dairy Milking Machine Liner, Highly Durable milking machine parts

Product Description:

Introducing the 201S Milking Liner (MW21U), a crucial component of your cow milking accessories, designed to enhance the efficiency and reliability of your milking process. This high-quality milking machine suction liner is engineered to provide long-lasting durability, ensuring it stands the test of time in your dairy operation.

The primary function of this cylindrical milking machine liner is milk extraction, offering exceptional performance in extracting milk from your cattle effectively. With a teat cup size of 148mm/44mm/20mm, this liner is optimized for a comfortable fit and efficient milk flow, contributing to a seamless milking experience for both the operator and the cow.

Manufactured with precision and care, the 201S Milking Liner (MW21U) is a vital component of your cattle milking components, playing a crucial role in the overall milking process. Its cylindrical shape ensures proper alignment and secure attachment to the milking machine, promoting consistent milk extraction and preventing leaks or inefficiencies.

When it comes to durability, this milking machine liner excels in providing long-lasting performance, making it a reliable investment for your dairy operation. Constructed from high-quality materials and built to withstand the rigors of daily milking routines, this liner is designed to deliver consistent results over an extended period of time.

Whether you are a small-scale dairy farmer or manage a large commercial dairy operation, the 201S Milking Liner (MW21U) is a valuable asset in optimizing your milking process. Its efficient milk extraction capabilities, combined with its durable construction and precise design, make it a top choice for those seeking quality and reliability in their cow milking accessories.

Enhance your milking efficiency and ensure optimal milk extraction with the 201S Milking Liner (MW21U), the ideal solution for dairy farmers looking to streamline their milking process and improve overall productivity. Invest in this high-performance milking machine suction liner today and experience the difference it can make in your cattle milking operation.

Features:

Product Name: Milking Machine Liners
Name: 201S Milking Liner (MW21U)
Material: Rubber
Cleaning Method: Washable
Design: Ribbed
Color: Black

Technical Parameters:

Service Life	2500 Milking Times
Name	201S Milking Liner (MW21U)
Durability	Long-lasting
Cleaning Method	Washable
Package Quantity	4 Pieces
Resistance	Chemical And Abrasion
Teat Cup Size	148mm/44mm/20mm
Function	Milk Extraction
Material	Rubber
Flexibility	High

Applications:

The Milking Machine Liners by Chuangpu are versatile components designed for various milking scenarios in the agriculture industry. With the model number 201S, these cylindrical liners are manufactured in China, ensuring high quality and reliability. The Chuangpu Milking Machine Liners are specifically crafted with high flexibility to efficiently adapt to different cattle teat sizes. The teat cup size of 148mm/44mm/20mm makes them suitable for a wide range of dairy cattle, providing a comfortable and secure fit during

milking sessions.

These ribbed liners are ideal for milking machines, offering consistent suction and performance during the milking process. Their design promotes proper milk flow and ensures the safety and comfort of the cattle.

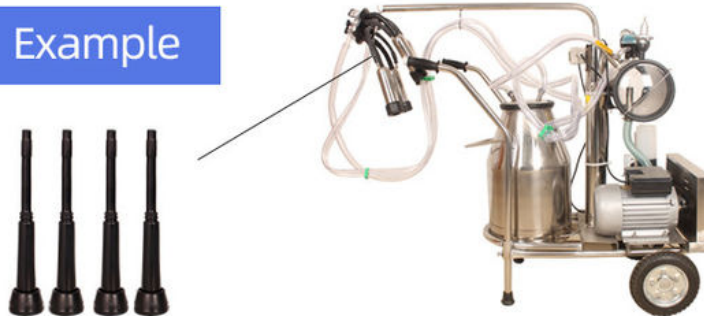

The Milking Machine Suction Liners from Chuangpu have a service life of up to 2500 milking times, making them durable and cost-effective for long-term use. Farmers can rely on these liners to withstand frequent milking sessions without compromising quality.

Whether in a small dairy farm or a large-scale cattle operation, these liners play a crucial role in the milking process. Their efficient design and high flexibility make them essential cattle milking components for optimal milk production and animal welfare.
