

Westfilia Dairy Milking System Components WS240U Milk Liner And Hygienic Milking Proces

Our Product Introduction

more products please visit us on mobilemilkingmachine.com

Basic Information

- Place of Origin: China
- Brand Name: Chuangpu
- Model Number: 240
- Minimum Order Quantity: 1 Bag
- Price: Negotiable
- Packaging Details: Carton
- Delivery Time: 3-5 working days
- Payment Terms: T/T, Western Union,
- Supply Ability: 50000BAG /Month

Product Specification

- Animal: Cow
- Material: Rubber
- Shape: Cylindrical
- Resistance: Chemical And Heat Resistant
- Compatibility: Fits Most Milking Machines
- Type: Westfilia
- Quantity: Sold In Sets Of 4
- Durability: Long-lasting
- Highlight: Hygienic Milking Proces Milk Liner,
Liner milking machine parts,
Westfilia Dairy Milking System Components

Product Description:

The Milking Machine Liners are an essential component for efficient milk extraction in livestock milking mechanisms. Designed with precision and functionality in mind, these liners are a must-have for dairy farmers and livestock owners who prioritize quality and performance.

One of the standout features of these Milking Machine Liners is their easy-to-clean design. The cleaning method for these liners is hassle-free, allowing users to maintain hygiene standards without investing excessive time and effort. This makes them a practical choice for busy farms and dairy operations where efficiency is key.

In terms of durability, these Milking Machine Liners are built to last. Crafted from high-quality materials, they are designed to withstand the rigors of regular use in demanding milking environments. The long-lasting nature of these liners ensures that they provide reliable performance over an extended period, offering great value for money.

The Milking Machine Liners are of the Westfilia type, known for their superior quality and precision engineering. Westfilia is a trusted name in the industry, synonymous with excellence and innovation. By choosing Westfilia liners, users can be confident in the performance and reliability of their milking equipment.

These Milking Machine Liners are designed for compatibility with most milking machines, making them a versatile choice for a wide range of setups. Whether you have a small-scale dairy operation or a larger livestock milking facility, these liners are sure to fit your milking equipment seamlessly. This compatibility ensures that users can easily integrate these liners into their existing setups without any issues. The Milking Machine Liners are sold in sets of 4, providing users with a convenient way to stock up on this essential component. Having multiple liners on hand allows for seamless replacement and rotation, ensuring uninterrupted milk extraction processes. With a set of 4 liners, users can maintain optimal performance in their milking machines without any downtime.

Overall, the Milking Machine Liners offer a combination of easy maintenance, durability, quality craftsmanship, compatibility, and convenience. These essential livestock milking supplies play a crucial role in the efficient extraction of milk, making them a valuable investment for dairy farmers and livestock owners alike.

Features:

Product Name: Milking Machine Liners

Material: Rubber

Resistance: Chemical And Heat Resistant

Pressure Rating: High Pressure Rating

Teat Cup Size: 147mm/44mm/27mm

Quantity: Sold In Sets Of 4

Technical Parameters:

Shape	Cylindrical
Durability	Long-lasting
Pressure Rating	High Pressure Rating
Flexibility	Flexible
Resistance	Chemical And Heat Resistant
Material	Rubber
Type	Westfilia
Quantity	Sold In Sets Of 4
Cleaning Method	Easy To Clean
Teat Cup Size	147mm/44mm/27mm

Applications:

The Chuangpu 240 Milking Liner (WS240U) is a high-quality rubber milking machine liner designed for use with Vacuum Teat Cups. This

essential cow milking accessory is a key component of dairy farming equipment, providing efficient and reliable milking performance. With its flexible design and Westfilia type construction, the Chuangpu 240 Milking Liner (WS240U) is suitable for a wide range of milking machine setups. Its easy-to-clean material makes maintenance a breeze, ensuring optimal hygiene standards are met in dairy farm operations.

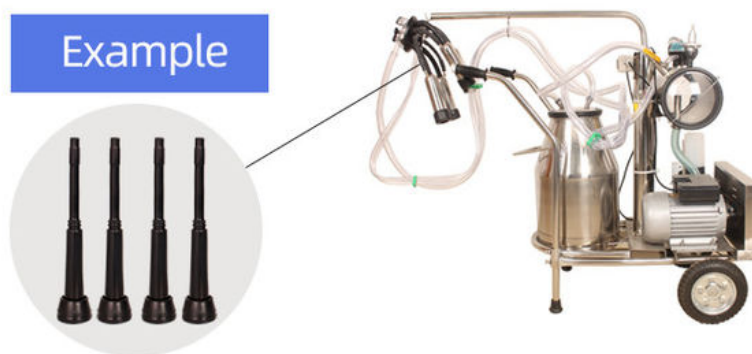

Whether you are milking a small herd or managing a large-scale dairy farm, the Chuangpu 240 Milking Liner (WS240U) is ideal for various milking application occasions and scenarios. Its durability and compatibility with Vacuum Teat Cups make it a versatile choice for dairy farmers looking for reliable milking solutions.

Originating from China, this milking machine liner from Chuangpu is crafted with precision and attention to detail, meeting the needs of modern dairy farming practices. Its superior performance and ease of use make it a valuable asset for any dairy farm looking to optimize milking processes.
