Basic Information

- Place of Origin: China
- Brand Name: Chuangpu
- Model Number: HL-M01C
- Minimum Order Quantity: 1 PCS
- Price: Negotiable
- Packaging Details: Carton
- Delivery Time: 3-5 working days
- Payment Terms: T/T, Western Union,
- Supply Ability: 5000PCS /Month

Product Specification

- Shut-off Valve: No
- Claw Base: Stainless Steel
- Range: Cow Milking Machine Replacement Parts
- Cap Material: PSU
- Model: HL-M01C
- Milk Outlet Diameter: 20.7mm
- Claw Type: Four-Prong
- Air Outlet Diameter: 10mm
- Highlight: Dairy Farmers Milking Machine Claw,
Waikato Milking Machine Claw,
200CC Milking Machine Claw

Product Description:

The Cow Milking Machine Claw is an essential component in any dairy farm setup, designed to efficiently extract milk from cows during the milking process. Weighing only 0.44kg, this milk suction claw is lightweight yet durable, making it easy to handle and maintain. One of the key features of this milk suction claw is its Liner Outlet Diameter of 12.5mm, which is optimized for effective milk flow during milking sessions. This diameter ensures a smooth and consistent milk suction process, maximizing the efficiency of the milking machine. The Cap Material of this milk suction claw is made of PSU, a high-quality and food-grade material known for its durability and resistance to wear and tear. This ensures that the milk suction claw remains in top condition even after prolonged use, providing reliable performance for the dairy farmer.

When using the Cow Milking Machine Claw, dairy farmers can expect a seamless milking experience with its efficient milk suction capabilities. The design of the claw allows for a secure connection to the milking machine, ensuring a tight seal that prevents any leaks or spills during the milking process.

Despite its lightweight construction, this milk suction claw is built to withstand the rigors of daily milking operations, offering long-lasting performance that dairy farmers can rely on. The sturdy construction of the claw makes it a reliable tool for extracting milk from cows with precision and ease.

With the Cow Milking Machine Claw, dairy farmers can streamline their milking process and improve overall efficiency on the farm. The milk suction claw's optimized design and durable construction make it a valuable investment for any dairy operation, helping farmers achieve higher productivity and yields.

While this milk suction claw does not feature a Shut-off Valve, its efficient design and reliable performance more than make up for this absence. Dairy farmers can trust in the Cow Milking Machine Claw to deliver consistent and effective milk suction capabilities, making it an indispensable tool in any milking setup.

In conclusion, the Cow Milking Machine Claw is a top-quality product that meets the needs of dairy farmers looking to enhance their milking process. With its lightweight construction, optimized diameter, durable material, and efficient performance, this milk suction claw is a reliable and effective tool for extracting milk from cows with precision and ease. Invest in the Cow Milking Machine Claw today and experience the difference it can make in your dairy farm operation.

Features:

Product Name: Milking Machine Claw

Type: Waikato

Item: Cow Milking Machine Claw

Milk Outlet Diameter: 20.7mm

Claw Type: Four-Prong

Weight: 0.44kg

Technical Parameters:

Claw Type	Four-Prong
Capacity	200CC
Range	Cow Milking Machine Replacement Parts
Claw Base	Stainless Steel
Milk Outlet Diameter	20.7mm
Liner Outlet Diameter	12.5mm
Model	HL-M01C
Item	Cow Milking Machine Claw
Shut-off Valve	No
Cap Material	PSU

Applications:

The Chuangpu HL-M01C Cow Milking Machine Claw is a high-quality replacement part for dairy cow milking machines. Designed and

manufactured in China, this claw is built to meet the demands of professional dairy farmers. With its durable stainless steel claw base and PSU cap material, the HL-M01C is built to withstand the rigors of daily milking operations. The sturdy construction ensures longevity and reliability, making it an essential component for any dairy machine. Whether you are milking a small herd or a large commercial dairy operation, the Chuangpu HL-M01C Cow Milking Machine Claw is suitable for a wide range of applications. Its compatibility with various cow milking machines makes it a versatile and convenient replacement part. Perfect for dairy farms, milk processing plants, and agricultural cooperatives, this dairy cow milking claw is designed to deliver efficient and consistent milking performance. Its advanced design ensures gentle and thorough milking, promoting animal welfare and milk quality. Whether you are replacing a worn-out claw or upgrading your milking system, the Chuangpu HL-M01C is the ideal choice for dairy cow milking claw replacement parts. Trust in the quality and reliability of this product to keep your milking operations running smoothly.
