

Customizable Boumatic Milking Machine Liners 400MX2 for Unique Milk Production

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Chuangpu
- Model Number: 400MX2
- Minimum Order Quantity: 1 Bag
- Price: Negotiable
- Packaging Details: Carton
- Delivery Time: 3-5 working days
- Payment Terms: T/T, Western Union,
- Supply Ability: 50000BAG /Month

Product Specification

- Resistance: Highly Resistant To Wear And Tear
- Shape: Cylindrical
- Animal: Cow
- Teat Cup Size: 140mm/43mm/19mm
- Usage: For Milking Cows And Other Dairy Animals
- Inflation Vent: With Or Without Vent
- Cleaning Method: Easily Cleaned With Warm Water And Soap
- Name: 400MX2 Milking Inflation
- Highlight: **Boumatic Milking Machine Liners,
400MX2 Milking Machine Liners,
Customizable Milking Machine Liners**

Product Description:

The 400MX2 Milking Inflation is a top-quality product designed specifically for cow milking operations. As one of the key components in a milking system, these Milking Machine Suction Liners play a crucial role in ensuring efficient and hygienic milk extraction from dairy cows. One of the standout features of the 400MX2 Milking Inflation is its innovative design that caters to the specific needs of dairy farmers. With a cylindrical shape, these liners are optimized for use with vacuum teat cups, providing a secure and effective seal during the milking process. The absence of an inflation vent ensures that the suction remains consistent and reliable throughout each milking session. When it comes to durability, the 400MX2 Milking Inflation excels in offering a long-lasting solution for livestock milking supplies. Constructed from high-quality materials, these liners are built to withstand the rigors of daily milking operations, providing reliable performance over an extended period of time.

Designed for use with cows, these milking machine liners are tailored to meet the specific requirements of dairy farmers who rely on efficient and effective milking equipment. The 400MX2 Milking Inflation is engineered to deliver optimal results, ensuring a smooth and productive milking process for both the farmers and the cows.

Whether you are a small-scale dairy farmer or a large commercial operation, investing in high-quality milking equipment such as the 400MX2 Milking Inflation is essential for maintaining the health and productivity of your livestock. By choosing a reliable and durable product like these milking machine liners, you can streamline your milking process and ensure consistent milk quality with each session.

Features:

Product Name: Milking Machine Liners -----

Durability: Long-lasting

Resistance: Highly Resistant To Wear And Tear

Quantity: Sold In Sets Of 4 Liners

Flexibility: Flexible

Type: Boumatic

Technical Parameters:

Type -----	Boumatic -----
Animal	Cow
Usage	For Milking Cows And Other Dairy Animals
Service Life	2500 Milking Times
Quantity	Sold In Sets Of 4 Liners
Durability	Long-lasting
Inflation Vent	Without Vent
Resistance	Highly Resistant To Wear And Tear
Cleaning Method	Easily Cleaned With Warm Water And Soap
Color	Black

Applications:

The Chuangpu 400MX2 Milking Inflation is a top-quality product designed for use in dairy milking systems. With its exceptional durability and resistance to wear and tear, this product is a reliable choice for dairy farmers looking for high-performance milking machine liners. Designed specifically for cow milking, the 400MX2 Milking Inflation is a key component of vacuum teat cups, ensuring efficient and hygienic milking processes. Its Boumatic type design makes it compatible with a wide range of milking equipment, providing versatility and ease of use for farmers.

Originating from China, the Chuangpu 400MX2 Milking Inflation is known for its superior quality and performance in livestock milking supplies. Its seamless construction and highly resistant material make it a long-lasting investment for dairy farms seeking reliable milking system components.

Whether used in traditional dairy farms or modern milking facilities, the 400MX2 Milking Inflation excels in various milking scenarios. Its

inflation vent design without a vent ensures optimal milking efficiency and consistent performance during operation. Overall, the Chuangpu 400MX2 Milking Inflation is a must-have product for dairy farmers seeking durable and efficient milking machine liners. Its high resistance to wear and tear, along with its compatibility with vacuum teat cups, makes it an essential component in dairy milking systems.
