

Boumatic's Flexible Dairy Milking Inflation 450TL Perfect Solution for Farm's Success

Our Product Introduction

more products please visit us on mobilemilkingmachine.com

Basic Information

- Place of Origin: China
- Brand Name: Chuangpu
- Model Number: 450TL
- Minimum Order Quantity: 1 Bag
- Price: Negotiable
- Packaging Details: Carton
- Delivery Time: 3-5 working days
- Payment Terms: T/T, Western Union,
- Supply Ability: 50000BAG /Month

Product Specification

- Durability: Long-lasting
- Material: Rubber
- Cleaning Method: Easily Cleaned With Warm Water And Soap
- Quantity: Sold In Sets Of 4 Liners
- Animal: Cow
- Shape: Cylindrical
- Name: 450TL Milking Inflation
- Teat Cup Size: 140mm/43mm/19mm
- Highlight: Boumatic's Flexible Dairy Milking Inflation, milking machine parts, milking machine spare parts

Product Description:

The Milking Machine Liners are an essential component for dairy farmers looking to optimize their milking process and maintain the health of their cattle. Designed for use with Cattle Teat Cylinders, these liners are specifically engineered to facilitate efficient milk extraction by creating a secure and airtight seal during milking.

These high-quality liners are designed without an Inflation Vent, ensuring optimal performance and minimal air leakage during the milking process. This feature contributes to a more efficient milking process and helps prevent potential contamination of the milk.

The Milking Machine Liners are engineered for durability, with a service life of up to 2500 milking times. This long-lasting design ensures that these liners can withstand the rigors of daily milking operations, providing reliable performance over an extended period.

These liners come in a classic Black color, adding a sleek and professional look to your milking setup. The black color also helps to easily distinguish these liners from other components in your milking machine, enhancing organization and efficiency during milking sessions. Each set of Milking Machine Liners is sold in a quantity of 4, making it convenient for dairy farmers to replace multiple liners at once and ensure consistent milking performance. By purchasing these liners in sets, farmers can easily maintain their milking equipment and avoid any disruptions to their milking routine.

Compatible with Milk Extraction Tubes and Vacuum Teat Cups, these Milking Machine Liners are a versatile and essential component for any modern dairy operation. Whether you are milking a small herd or a large-scale operation, these liners are designed to meet the demands of daily milking and help you achieve optimal milk extraction efficiency.

Features:

Product Name: Milking Machine Liners

Durability: Long-lasting

Animal: Cow

Resistance: Highly Resistant To Wear And Tear

Flexibility: Flexible

Name: 450TL Milking Inflation

Technical Parameters:

Animal	Cow
Service Life	2500 Milking Times
Color	Black
Type	Boumatic
Inflation Vent	Without Vent
Resistance	Highly Resistant To Wear And Tear
Teat Cup Size	140mm/43mm/19mm
Cleaning Method	Easily Cleaned With Warm Water And Soap
Material	Rubber
Name	450TL Milking Inflation

Applications:

The Milking Machine Liners by Chuangpu, model number 450TL, are essential Cow Milking Accessories designed for efficient milk extraction. Made in China from durable rubber material, these liners are ideal for use in various cattle teat cylinder scenarios.

Whether you are milking dairy cows or other cattle breeds, the 140mm/43mm/19mm Teat Cup Size of the liners ensures a proper fit for different teat sizes, allowing for a comfortable and effective milking process. The cylindrical shape of the liners provides a secure and reliable seal during milking, making them suitable for a wide range of cattle teat cylinder shapes.

Thanks to their long-lasting durability, these Milk Extraction Tubes are a cost-effective solution for dairy farmers and livestock professionals. The absence of an Inflation Vent in the design simplifies maintenance and cleaning, making the liners easy to use and

maintain.

Whether you are operating a small-scale dairy farm or a large commercial milking operation, the Chuangpu Milking Machine Liners offer a reliable and efficient solution for all your milking needs. Trust in the quality and performance of these liners to streamline your milk extraction process and ensure the well-being of your dairy cattle.
