Product Description:

The Milking Machine Liners in Black are essential cattle milking components designed to enhance the efficiency and performance of your dairy farming equipment. With a length of 292mm, these liners come in a convenient pack of 4, ensuring you have an adequate supply for your milking needs.

These high-quality liners are compatible with most standard milking machines, making them a versatile choice for dairy farmers looking to streamline their operations. Whether you have a small-scale dairy farm or a larger operation, these liners are suitable for a wide range of setups.

One of the key features of these Milking Machine Liners is their durability. Constructed to withstand the rigors of daily use, these liners are long-lasting and provide reliable performance over an extended period. This durability is essential for maintaining the efficiency of your milking machine and ensuring consistent results.

When it comes to milking efficiency, the quality of the liners plays a crucial role. These black Milking Machine Liners are designed to fit securely and snugly, helping to create a proper seal for the cattle teat cylinder. This tight seal is essential for efficient milk extraction and preventing any leaks or spills during the milking process.

Investing in high-quality milking machine liners is essential for the overall productivity and success of your dairy farm. With these durable and reliable liners, you can trust that your milking equipment will perform optimally, leading to higher yields and improved efficiency in your operations.

Features:

Product Name: Milking Machine Liners

Teat Cup Size: 148mm/42.5mm/22.5mm

Color: Black

Material: Rubber

Reference Code: 999007-03

Usage: For Milking Cows And Other Dairy Animals

Technical Parameters:

Usage	For Milking Cows And Other Dairy Animals
Resistance	Chemical And Heat Resistant
Compatibility	Fits Most Standard Milking Machines
Quantity	Pack Of 4
Durability	Long-lasting
Material	Rubber
Length	322mm
Design	Ribbed For Better Grip And Stability
Color	Black
Teat Cup Size	148mm/42.5mm/22.5mm

Applications:

The Milking Machine Liners by Chuangpu (Model Number: 009) are versatile cow milking accessories designed for efficient milk extraction. These high-quality DL009 Milking Liners are essential cattle milking components that can be used in various scenarios. Originating from China, these durable rubber liners come in a standard teat cup size of 148mm/42.5mm/22.5mm, making them suitable for different cow breeds. The black color of the liners not only gives them a sleek look but also ensures easy maintenance and cleaning. With a pack of 4 liners included, these Milking Machine Liners are ideal for dairy farmers and livestock owners who rely on consistent milking equipment. Whether you are a small-scale dairy farmer or managing a larger cattle farm, these liners offer reliable performance and longevity.

These Milking Machine Liners are perfect for use with milk extraction tubes and can be utilized in various milking scenarios. From daily milking routines to specialized dairy operations, these liners provide a secure and comfortable fit for the cows, ensuring efficient milk extraction without causing discomfort.

Investing in the Chuangpu 009 Milking Liners is a smart choice for anyone looking to enhance their milking process with top-notch equipment. With their quality construction, precise teat cup size, and durability, these liners are a valuable addition to any dairy operation.
