

Eco Friendly Milking Machine Liners DDL For Sustainable And Responsible Dairy Farming

Our Product Introduction

more products please visit us on mobilemilkingmachine.com

Basic Information

- Place of Origin: China
- Brand Name: Chuangpu
- Model Number: DDL
- Minimum Order Quantity: 1 Bag
- Price: Negotiable
- Packaging Details: Carton
- Delivery Time: 3-5 working days
- Payment Terms: T/T, Western Union,
- Supply Ability: 50000BAG /Month

Product Specification

- Usage: For Milking Cows And Other Dairy Animals
- Durability: Long-lasting
- Type: Delaval
- Resistance: Chemical And Heat Resistant
- Length: 322mm
- Teat Cup Size: 160mm/44mm/29mm
- Name: DDL Milking Liner
- Color: Black
- Highlight: **Eco-Friendly Milking Machine Liners,
Sustainable Milking Machine Liners,
Responsible Milking Machine Liners**

Product Description:

The DDL Milking Liner is a high-quality product designed for efficient milking operations in dairy farms. Made from durable rubber material, these milking machine liners provide excellent performance and longevity, making them a reliable choice for dairy farmers. These milking liners are specifically designed to create a vacuum seal, ensuring a tight and secure fit during the milking process. This feature is essential for efficient milk extraction and helps to streamline the milking operation.

The DDL Milking Liner is built to withstand harsh conditions, making it chemical and heat resistant. This resistance ensures that the milking liners can maintain their integrity even when exposed to various cleaning agents and high temperatures during the milking process.

With a sleek black color, these milking machine liners are not only functional but also visually appealing. The black color adds a professional touch to the milking equipment, enhancing the overall aesthetics of the milking setup.

These milking liners are essential components of the milking machine, working in conjunction with milk extraction tubes to facilitate the efficient extraction of milk from dairy animals. The vacuum seal created by the liners ensures that the milk extraction process is smooth and effective, reducing the time and effort required for milking.

Whether you are milking cows, goats, or other livestock, the DDL Milking Liner is a versatile option that can be used across different types of dairy animals. This versatility makes it a valuable addition to any dairy farm looking to streamline their milking operations.

When it comes to livestock milking supplies, quality and reliability are paramount. The DDL Milking Liner delivers on both fronts, offering a durable and efficient solution for dairy farmers looking to optimize their milking processes.

Investing in high-quality cattle milking components like the DDL Milking Liner can have a significant impact on the productivity and efficiency of your dairy farm. By ensuring a tight vacuum seal and efficient milk extraction, these milking liners help to maximize milk yield and minimize wastage.

In conclusion, the DDL Milking Liner is a top-tier product that combines durability, efficiency, and reliability. Designed to create a vacuum seal for efficient milking, these milking machine liners are a must-have for dairy farmers looking to enhance their milking operations. With its chemical and heat resistance, sleek black color, and compatibility with milk extraction tubes, the DDL Milking Liner stands out as a superior choice in livestock milking supplies and cattle milking components.

Features:

Product Name: Milking Machine Liners

Resistance: Chemical And Heat Resistant

Design: Ribbed For Better Grip And Stability

Function: Creates A Vacuum Seal For Efficient Milking

Compatibility: Fits Most Standard Milking Machines

Teat Cup Size: 160mm/44mm/29mm

Technical Parameters:

Compatibility	Fits Most Standard Milking Machines
Resistance	Chemical And Heat Resistant
Name	DDL Milking Liner
Usage	For Milking Cows And Other Dairy Animals
Design	Ribbed For Better Grip And Stability
Color	Black
Type	Delaval
Durability	Long-lasting
Function	Creates A Vacuum Seal For Efficient Milking
Reference Code	SP595U

Applications:

The Chuangpu DDL Milking Liner is a crucial component in dairy milking systems, designed to facilitate efficient milk extraction. Manufactured in China, this black milking machine liner is known for its durability and long-lasting performance. One of the key functions of the DDL Milking Liner is to create a vacuum seal, ensuring optimal milking conditions for dairy cows. This vacuum seal is essential for the smooth operation of the milking machine, allowing for the extraction of milk through the milk extraction tubes.

Whether you are operating a small-scale dairy farm or a large commercial dairy operation, the Chuangpu DDL Milking Liner is a reliable choice for ensuring the smooth and efficient milking of your cows. Its high-quality design and construction make it a dependable component of your dairy milking system.

With the reference code SP595U, the DDL Milking Liner is easy to identify and source for your dairy farm needs. It is compatible with various milking machine models and can be seamlessly integrated into your existing dairy milking system components.

Choose the Chuangpu DDL Milking Liner for a dependable and long-lasting solution for your dairy milking needs. Whether you are looking to upgrade your current milking machine setup or replace worn-out components, the DDL Milking Liner is a reliable choice that will ensure efficient milk extraction and smooth operation of your dairy milking system.
