

High Performance 230S Milking Machine Liners 7029-2725-010 For Optimal Dairy Production

Our Product Introduction

more products please visit us on mobilemilkingmachine.com

Basic Information

- Place of Origin: China
- Brand Name: Chuangpu
- Model Number: 230S
- Minimum Order Quantity: 1 Bag
- Price: Negotiable
- Packaging Details: Carton
- Delivery Time: 3-5 working days
- Payment Terms: T/T, Western Union,
- Supply Ability: 50000BAG /Month

Product Specification

- Durability: Long-lasting
- Teat Cup Size: 147mm/44mm/27mm
- Color: Green
- Name: 230S Milking Liner
- Material: Silicone
- Type: Westfalia
- Compatibility: Fits Most Standard Milking Machines
- Function: Creates A Vacuum Seal For Efficient Milking
- Highlight: **230S Milking Machine Liners,
High Performance Milking Machine Liners,
Optimal Dairy Production Milking Machine
Liners**

Product Description:

The Milking Machine Liners are essential components of a dairy milking system, specifically designed to create a vacuum seal for efficient milking. These liners, also known as Vacuum Teat Cups, play a crucial role in the livestock milking mechanism, ensuring a smooth and productive milking process.

Manufactured as per the highest quality standards, these Milking Machine Liners belong to the renowned Westfalia type, known for its superior performance and reliability in the industry. The distinctive green color of these liners not only adds a visual appeal but also signifies their association with the Westfalia brand, a trusted name in the field of dairy equipment.

One of the key features of these Milking Machine Liners is their exceptional durability, making them a long-lasting investment for dairy farmers and livestock owners. Constructed from high-quality silicone material, these liners are built to withstand the rigors of daily milking operations, ensuring consistent performance over an extended period.

When it comes to the functionality, these Milking Machine Liners excel in creating a secure vacuum seal during milking sessions. This vacuum seal is essential for efficient milking, as it helps to extract milk from the teats of dairy animals effectively. By maintaining a consistent vacuum pressure, these liners contribute to the overall performance of the milking machine and ensure optimal milk yield.

Whether you are setting up a new dairy farm or upgrading your existing milking equipment, investing in high-quality Milking Machine Liners is essential for the smooth operation of your dairy milking system. With their Westfalia design, green color, long-lasting durability, and silicone material, these liners are the ideal choice for dairy farmers looking to enhance the efficiency and productivity of their livestock milking mechanism.

Features:

Product Name: Milking Machine Liners

Function: Creates A Vacuum Seal For Efficient Milking

Material: Silicone

Color: Green

Compatibility: Fits Most Standard Milking Machines

Usage: For Milking Cows And Other Dairy Animals

Technical Parameters:

Function	Creates A Vacuum Seal For Efficient Milking
Compatibility	Fits Most Standard Milking Machines
Teat Cup Size	147mm/44mm/27mm
Reference Code	7029-2725-010
Color	Green
Material	Silicone
Quantity	Pack Of 4
Durability	Long-lasting
Resistance	Chemical And Heat Resistant
Usage	For Milking Cows And Other Dairy Animals

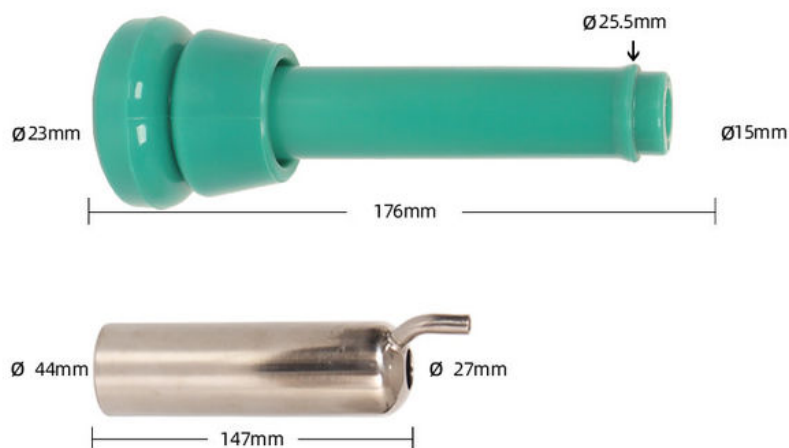

Applications:

The Chuangpu 230S Milking Liners are a vital component for dairy farming equipment, specifically designed for use with milking machines. These silicone liners, with the reference code 7029-2725-010, are known for their chemical and heat resistance, ensuring durability and longevity even under demanding conditions.

Perfect for use in milking machine suction liners, the Chuangpu 230S Milking Liners provide a reliable and efficient solution for farmers looking to streamline their milking process. The pack of 4 liners allows for easy replacement and maintenance, saving time and effort for dairy farm operators.

Originating from China, these milking machine liners are crafted with high-quality silicone material, guaranteeing a safe and hygienic milking environment for the cows. The Chuangpu 230S Milking Liners are compatible with vacuum teat cups, ensuring a secure and airtight fit during the milking process.

Whether you are a small-scale dairy farmer or managing a large commercial operation, the Chuangpu 230S Milking Liners are suitable for a wide range of milking machine applications. With their resistance to chemicals and heat, these liners offer peace of mind and reliability for consistent milking performance.
