Basic Information

- Place of Origin: China
- Brand Name: Chuangpu
- Model Number: HL-M02
- Minimum Order Quantity: 1 PCS
- Price: Negotiable
- Packaging Details: Carton
- Delivery Time: 3-5 working days
- Payment Terms: T/T, Western Union,
- Supply Ability: 5000PCS /Month

Product Specification

- Item: Cow Milking Machine Claw
- Milk Outlet Diameter: 19mm
- Shut-off Valve: Yes
- Range: Cow Milking Machine Replacement Parts
- Claw Type: Four-Prong
- Weight: 0.6kg
- Claw Base: Plastic
- Capacity: 240CC
- Highlight: 13mm Milking Machine Claw,
19mm Milking Machine Claw,
240CC Milking Machine Claw

Product Description:

The Milking Machine Claw is an essential component of any dairy operation, serving as the milk collector during the milking process. This particular dairy machine claw is designed with precision and efficiency in mind, making it a top choice for farmers and dairy producers worldwide.

One of the standout features of this cow milking claw assembly is its Shut-off Valve, which allows for easy control and management of the milk flow during milking. This ensures a seamless and hygienic milking process, ultimately leading to higher quality milk production.

The model of this milking machine claw is HL-M02, known for its reliability and durability in demanding milking environments. Whether you have a small-scale dairy farm or a large commercial operation, the HL-M02 model is sure to meet your needs and exceed your expectations.

Constructed with high-quality PC material, the cap of this milk collector claw is built to last. The sturdy construction ensures long-lasting performance, even with frequent and rigorous use. The PC material also offers excellent resistance to wear and tear, making it a reliable choice for daily milking operations.

With a milk outlet diameter of 19mm, this dairy machine claw is designed for optimal milk flow and efficiency. The precise sizing of the milk outlet ensures a steady and consistent flow of milk from the cow to the milk collection system, reducing the risk of spills and waste during the milking process.

Weighing just 0.6kg, this milking machine claw is lightweight and easy to handle, making it convenient for milking operators of all experience levels. The compact design and manageable weight of the claw assembly contribute to a comfortable and user-friendly milking experience, enhancing overall efficiency and productivity.

In conclusion, the Milking Machine Claw with Shut-off Valve, model HL-M02, is a reliable and high-performance dairy machine claw that meets the needs of modern dairy operations. With its durable PC cap, optimized milk outlet diameter, and lightweight design, this milk collector claw is a top choice for farmers looking to streamline their milking process and improve milk quality.

Features:

Product Name: Milking Machine Claw

Capacity: 240CC

Cap Material: PC

Air Outlet Diameter: 10mm

Range: Cow Milking Machine Replacement Parts

Model: HL-M02

Technical Parameters:

Shut-off Valve	Yes
Claw Base	Plastic
Item	Cow Milking Machine Claw
Liner Outlet Diameter	13mm
Capacity	240CC
Weight	0.6kg
Model	HL-M02
Claw Type	Four-Prong
Milk Outlet Diameter	19mm
Air Outlet Diameter	10mm

Applications:

The Chuangpu HL-M02 Milking Machine Claw is a high-quality product designed for efficient milk harvesting in various dairy farming settings. With its durable construction and reliable performance, this udder suction claw is suitable for a wide range of application occasions and scenarios.

One key application scenario for the HL-M02 Milking Machine Claw is in small to medium-sized dairy farms where automated milking

systems are utilized. The claw's efficient udder suction technology ensures gentle and effective milk extraction, promoting cow comfort and overall milking efficiency.

Another important application occasion for the HL-M02 is in commercial dairy operations with a high volume of milk production. The claw's sturdy plastic base and 10mm air outlet diameter make it ideal for continuous use and easy maintenance, even in demanding milking environments.

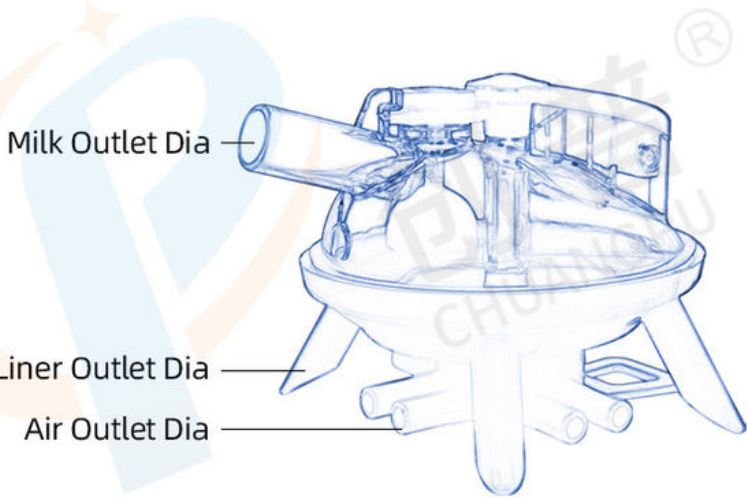

Furthermore, the shut-off valve feature of the HL-M02 Milking Machine Claw adds an extra layer of convenience and control during the milking process. This allows for seamless switching between cows and prevents milk spillage, enhancing overall productivity and cleanliness in the milking parlor.

Whether used in traditional milking parlors or modern dairy facilities, the Chuangpu HL-M02 Milking Machine Claw offers consistent performance and durability. Its lightweight design, weighing only 0.6kg, makes it easy to handle and maneuver during milking operations, reducing strain on the operator.

In conclusion, the HL-M02 Milking Machine Claw by Chuangpu is a versatile and reliable product that caters to the needs of dairy farmers across different scales of operation. Its efficient udder suction claw technology, durable construction, and user-friendly features make it a valuable asset in the milk harvesting process.

PRODUCT DESCRIPTION

IT IS HUNG ON THE SHOULDER OF THE COW OR THE ROOT OF THE HIND LEG TO PREVENT THE UNSCRUPULOUS COW KICKER FROM CAUSING HARM TO THE BREEDER AND FACILITATING THE WORK OF THE BREEDER.

Warm tips: due to manual measurement,
the product parameters are for reference only, please prevail in kind.
