Product Description:

The Cow Milking Machine Claw is equipped with a shut-off valve, adding an extra layer of convenience and control to the milking process. This feature allows for easy regulation of milk flow, ensuring a smooth and efficient operation. The capacity of this milk suction claw is 240CC, providing ample space for collecting milk during each milking session. As part of the range of Cow Milking Machine Replacement Parts, this claw is a reliable and durable component that is essential for maintaining the functionality of your milking machine. Whether you are replacing an old claw or upgrading your current setup, this milking machine claw is a dependable choice that will enhance the overall performance of your dairy operation. Designed for ease of use and compatibility with various milking machines, the Cow Milking Machine Claw is a versatile and essential tool for dairy farmers. Its efficient design and reliable performance make it a valuable addition to any dairy farm, ensuring smooth and productive milking sessions.

Features:

Product Name: Milking Machine Claw

Cap Material: PC

Capacity: 240CC

Weight: 0.5kg

Milk Outlet Diameter: 19mm

Model: HL-M02

Technical Parameters:

Capacity	240CC
Model	HL-M02
Claw Base	Stainless Steel
Air Outlet Diameter	10mm
Shut-off Valve	Yes
Claw Type	Four-Prong
Cap Material	PC
Weight	0.5kg
Range	Cow Milking Machine Replacement Parts
Item	Cow Milking Machine Claw

Applications:

The Chuangpu HL-M02A Cow Milking Machine Claw is a high-quality milking machine claw assembly designed for efficient and hygienic cow milking processes. With a capacity of 240CC, this milking machine claw is a reliable and essential component for dairy farmers and milk processing facilities.

Manufactured in China, this cow milking machine claw features a durable stainless steel claw base that ensures long-lasting performance and easy cleaning. The milk outlet diameter of 19mm and air outlet diameter of 10mm are optimized for smooth milk suction and air ventilation during the milking process.

The Chuangpu HL-M02A Milking Machine Claw is suitable for various product application occasions and scenarios, including:

1. Dairy Farms: The milking machine claw is ideal for use in dairy farms of all sizes, providing efficient and sanitary milking operations for cows.
2. Milk Processing Facilities: This cow milking claw assembly is perfect for commercial milk processing facilities where high volumes of milk need to be harvested with precision and speed.
3. Livestock Shows and Competitions: The milking machine claw can also be used in livestock shows and competitions to demonstrate modern milking techniques and equipment.

4. Educational Institutions: Agricultural schools and universities can utilize the milk suction claw for teaching purposes and practical training in dairy farming practices.

Overall, the Chuangpu HL-M02A Cow Milking Machine Claw is a versatile and reliable product that meets the needs of dairy farmers and milk processing facilities. Its sturdy construction, efficient suction capabilities, and easy maintenance make it a valuable asset for any operation involving cow milking.
