

Milking Stainless Steel Claw Base Milking Machine Claw 13.5mm Liner Outlet Diameter

Our Product Introduction

more products please visit us on mobilemilkingmachine.com

Basic Information

- Place of Origin: China
- Brand Name: Chuangpu
- Model Number: HL-M03 / HL-M03A
- Minimum Order Quantity: 1 PCS
- Price: Negotiable
- Packaging Details: Carton
- Delivery Time: 3-5 working days
- Payment Terms: T/T, Western Union,
- Supply Ability: 5000PCS /Month

Product Specification

- Range: Cow Milking Machine Replacement Parts
- Milk Outlet Diameter: 22mm
- Model: HL-M03 / HL-M03A
- Claw Base: Stainless Steel
- Weight: 0.5kg
- Reference Code: 7021-2620-300
- Liner Outlet Diameter: 13.5mm
- Capacity: 300CC
- Highlight: **13.5mm Liner Outlet Milking Machine Claw, Claw milking machine parts**

Product Description:

The Milking Machine Claw is an essential component for any dairy farm looking to optimize their milking process. Designed with precision and efficiency in mind, this cow milking claw assembly is a top-of-the-line product that delivers reliable performance and durability. Featuring a Liner Outlet Diameter of 13.5mm, this udder suction claw ensures a secure and efficient milking process. The carefully crafted design of the claw allows for optimal milk flow, making it easier to milk cows quickly and effectively.

With an Air Outlet Diameter of 10mm, this cow milk machine claw ensures proper air flow during the milking process, preventing any disruptions or inefficiencies. This feature contributes to the overall smooth operation of the milking machine, enhancing the productivity of the milking process.

Part of the range of cow milking machine replacement parts, this claw is designed to meet the high demands of dairy farming operations. Whether you are looking to upgrade your existing milking machine or replace worn-out parts, this product is a reliable choice that will deliver consistent results.

The Milking Machine Claw is constructed with high-quality materials, including PC and PSU, ensuring durability and longevity. These materials are known for their strength and resistance to wear and tear, making this claw a long-lasting investment for your dairy farm. Equipped with a four-prong claw type, this product is designed for efficiency and precision. The four-prong design ensures a secure grip on the udder, allowing for a steady and effective milking process. This design feature enhances the overall performance of the milking machine, making it easier to extract milk from cows.

Whether you are a small-scale dairy farmer or a large commercial operation, the Milking Machine Claw is a versatile and reliable component that will streamline your milking process. With its innovative design and durable construction, this claw is a valuable addition to any milking system.

Features:

Product Name: Milking Machine Claw
Capacity: 300CC
Shut-off Valve: Yes
Reference Code: 7021-2620-300
Weight: 0.5kg
Cap Material: PC, PSU

Technical Parameters:

Milk Outlet Diameter	22mm
Claw Type	Four-Prong
Model	HL-M02
Claw Base	Stainless Steel
Range	Cow Milking Machine Replacement Parts
Reference Code	7021-2620-300
Cap Material	PC, PSU
Item	Cow Milking Machine Claw
Weight	0.5kg
Shut-off Valve	Yes

Applications:

The Chuangpu milking machine claw, model numbers HL-M03 and HL-M03A, is a high-quality product designed for specific agricultural applications. Made in China, this cow milking machine claw, also known as a milk suction claw, is a crucial component in dairy farming operations.

The four-prong claw design of the HL-M03 model ensures efficient milk extraction from cows. This claw type, along with the durable cap

material made of PC and PSU, guarantees a reliable and hygienic milking process. Farmers can use the Chuangpu milk suction claw in various occasions and scenarios, such as daily milking routines, large-scale dairy farms, and milking parlors. The HL-M03 model, with reference code 7021-2620-300, offers consistent performance and ease of use. Whether it's for commercial dairy operations or small-scale farms, the HL-M03A model provides versatility and reliability in milking processes. Its compatibility with the HL-M02 model further enhances its functionality, making it a valuable asset for dairy farmers. In summary, the Chuangpu cow milk machine claw is a dependable product that caters to the diverse needs of dairy farmers. With its innovative design, durable construction, and efficient performance, this milk suction claw is essential for ensuring smooth and productive milking operations.
