

Revolutionize Milking Process 300CC Capacity Milking Machine Claw

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Chuangpu
- Model Number: HL-M03B
- Minimum Order Quantity: 1 PCS
- Price: Negotiable
- Packaging Details: Carton
- Delivery Time: 3-5 working days
- Payment Terms: T/T, Western Union,
- Supply Ability: 5000PCS /Month

Product Specification

- Model: HL-M02
- Reference Code: 7021-2620-290
- Milk Outlet Diameter: 22mm
- Cap Material: PC 、 PSU
- Capacity: 300CC
- Claw Base: Stainless Steel
- Shut-off Valve: Without
- Air Outlet Diameter: 10mm
- Highlight: Revolutionize Milking Machine Claw,
300CC Capacity Milking Machine Claw,
300CC Milking Machine Claw

Product Description:

The dairy cow milking claw is an essential component of any milking machine system, designed to efficiently and effectively extract milk from cows during the milking process. This particular claw features a Four-Prong design, ensuring secure and stable attachment to the milking machine setup.

With a Reference Code of 7021-2620-290, this udder suction claw is a reliable and durable option for dairy farmers looking to streamline their milking operations. The sturdy construction of the claw guarantees long-lasting performance and consistent results with each use. The milk outlet diameter of 22mm on this suction claw facilitates smooth and efficient milk flow during the milking process. This optimal size helps to prevent clogs and ensures that the milk is extracted effectively, reducing wastage and maximizing productivity.

Additionally, the liner outlet diameter of 13.5mm on this claw is specifically designed to accommodate various sizes of liners, providing versatility and compatibility with different milking setups. This feature allows for easy customization and adjustment based on the specific needs of the dairy operation.

As a specialized suction claw for cattle, this product is engineered to meet the demanding requirements of dairy farming. Its efficient design and functionality make it a valuable asset for any dairy farm, enhancing the milking process and ensuring the well-being of the cows.

Whether you are a small-scale dairy farmer or a large commercial operation, this cow milking machine claw offers reliability, performance, and convenience in one compact and efficient package. Invest in this suction claw to optimize your milking process and improve the overall productivity of your dairy farm.

Upgrade your milking machine system with this high-quality and dependable dairy cow milking claw, designed to meet the needs of modern dairy farming practices. With its Four-Prong design, optimal milk outlet diameter, and versatile liner outlet diameter, this claw is the ideal choice for efficient and effective milking operations.

Experience the benefits of using a premium suction claw for cattle and witness the difference it can make in your dairy farm operations. Improve milk extraction efficiency, reduce milking time, and ensure the comfort and well-being of your cows with this top-of-the-line cow milking machine claw.

Features:

Product Name: Milking Machine Claw

Cap Material: PC, PSU

Claw Base: Stainless Steel

Milk Outlet Diameter: 22mm

Capacity: 300CC

Range: Cow Milking Machine Replacement Parts

Technical Parameters:

Capacity	300CC
Milk Outlet Diameter	22mm
Claw Base	Stainless Steel
Item	Cow Milking Machine Claw
Weight	0.5kg
Range	Cow Milking Machine Replacement Parts
Model	HL-M02
Claw Type	Four-Prong
Air Outlet Diameter	10mm
Reference Code	7021-2620-290

Applications:

The Milking Machine Claw product by Chuangpu, with Model Number HL-M03B, is a high-quality replacement part designed for cow milking machines. Originating from China, this product is part of the HL-M02 model range and features a milk outlet diameter of 22mm.

The milking cluster claw is a crucial component in any milking machine setup, and the Chuangpu HL-M03B claw, with its four-prong design, ensures efficient and reliable milk suction during the milking process. The claw type is specifically crafted to provide a secure grip on the teats, allowing for smooth and effective milk extraction.

Whether in a small-scale dairy farm or a large commercial operation, the Chuangpu Milking Machine Claw is an essential part of the milking equipment. Its durable cap material, made of PC and PSU, guarantees longevity and resilience under demanding milking conditions.

From daily milking routines to periodic maintenance and replacements, this milking cluster claw is versatile and suitable for various application occasions. Farmers and dairy producers can rely on the Chuangpu HL-M03B claw to deliver consistent performance and aid in maintaining the overall efficiency of their milking machines.

With its precise design and compatibility with common cow milking machine setups, this claw offers a seamless integration into existing systems. Whether in need of a direct replacement part or looking to upgrade to a more efficient claw type, the Chuangpu Milking Machine Claw is a reliable choice for all milking scenarios.
