Basic Information

- Place of Origin: China
- Brand Name: Chuangpu
- Model Number: HL-M03C Bomatic
- Minimum Order Quantity: 1 PCS
- Price: Negotiable
- Packaging Details: Carton
- Delivery Time: 3-5 working days
- Payment Terms: T/T, Western Union,
- Supply Ability: 5000PCS /Month

Product Specification

- Model: HL-M03C Bomatic
- Claw Base: PSU
- Difference: Independent Air Connector
- Item: Cow Milking Machine Claw
- Range: Cow Milking Machine Replacement Parts
- Cap Material: PSU
- Liner Outlet Diameter: 16mm
- Milk Outlet Diameter: 22.5mm
- Highlight: 16mm Liner Outlet Diameter Milking Claw, Improved Milking Machine Claw

Product Description:

The PSU Milking Machine Claw is an essential component for efficient dairy farming, specifically designed for use in cow milking systems. This high-quality cow milking claw assembly is a crucial part of the milking cluster, ensuring a smooth and productive milking process. Designed to meet the needs of modern dairy farms, the HL-M03C Bomatic model of the milking machine claw offers superior performance and durability. The use of PSU material in the construction of this milking claw ensures long-lasting reliability and resistance to wear and tear, making it a cost-effective solution for dairy farmers.

The milking machine claw is a key part of the milking system, responsible for collecting milk from multiple cows simultaneously. With a capacity of 340CC, this milking claw is ideal for efficient milk collection, allowing dairy farmers to streamline their milking process and maximize productivity.

One of the standout features of the PSU Milking Machine Claw is its innovative design that does not include a shut-off valve. This design choice enhances the efficiency of the milking process, allowing for continuous milk flow without interruptions, resulting in a faster and more seamless milking operation.

Whether you are a small-scale dairy farmer or managing a large commercial dairy operation, the PSU Milking Machine Claw offers the reliability and performance you need to ensure smooth and effective milking routines. Its sturdy construction and high capacity make it suitable for handling the demands of daily milking tasks, providing a reliable solution for dairy farmers looking to optimize their milk production process.

Investing in the HL-M03C Bomatic model of the milking machine claw means investing in the future of your dairy farm. With its durable PSU material, efficient design, and high capacity, this milking claw is a valuable addition to any dairy operation, helping you achieve consistent milking results and maintain the health and well-being of your cows.

Upgrade your milking system with the PSU Milking Machine Claw and experience the benefits of a reliable and efficient cow milking claw assembly. Streamline your milking process, increase productivity, and ensure the highest standards of milk quality with this top-of-the-line milking claw designed for modern dairy farming.

Features:

Product Name: Milking Machine Claw

Milk Outlet Diameter: 22.5mm

Weight: 0.37kg

Shut-off Valve: Without

Claw Base: Stainless Steel

Difference: Independent Air Connector

Technical Parameters:

Liner Outlet Diameter	16mm
Model	HL-M03C Bomatic
Capacity	340CC
Range	Cow Milking Machine Replacement Parts
Item	Cow Milking Machine Claw
Weight	0.37kg
Claw Base	PSU
Claw Type	Four-Prong

Applications:

The Chuangpu HL-M03C Bomatic Cow Milking Machine Claw is a high-quality product designed for efficient milking of cows. With its sturdy construction and reliable performance, this milking machine claw is suitable for a variety of application occasions and scenarios. One key feature of this suction claw for cattle is its independent air connector, which ensures optimal suction during the milking process. The 16mm liner outlet diameter allows for smooth milk flow, while the lightweight design of 0.37kg makes it easy to handle.

Whether you are milking a small herd of dairy cows on a farm or operating a larger commercial dairy operation, the Chuangpu milking claw for cows is versatile enough to meet your needs. Its durable construction and efficient design make it ideal for daily milking routines. From milking parlors to mobile milking setups, this milking machine claw can be used in various settings with ease. The reliable performance of the Chuangpu HL-M03C Bomatic Cow Milking Machine Claw makes it a valuable tool for any dairy farmer looking to streamline their milking process.

Manufactured in China, this milking claw meets high-quality standards and is built to last. With its independent air connector and 16mm liner outlet diameter, it offers consistent and efficient milk extraction. Although it does not have a shut-off valve, its reliable performance and durable construction make it a dependable choice for dairy farmers.
