Basic Information

- Place of Origin: China
- Brand Name: Chuangpu
- Model Number: HL-M03D-2
- Minimum Order Quantity: 1 PCS
- Price: Negotiable
- Packaging Details: Carton
- Delivery Time: 3-5 working days
- Payment Terms: T/T, Western Union,
- Supply Ability: 5000PCS /Month

Product Specification

- Milk Outlet Diameter: 21.1mm
- Model: HL-M03D-2
- Capacity: 300CC
- Cap Material: PSU
- Claw Type: Four-Prong
- Item: Cow Milking Machine Claw
- Weight: 0.42kg
- Reference Brand: Milk-rite
- Highlight: **Large Scale Milking Machine Claw, 300CC Milking Machine Claw**

Product Description:

Designed with a shut-off valve, this milking machine claw allows for precise control over the milk flow, ensuring a smooth and efficient milking process. The inclusion of the shut-off valve also helps in preventing any spillage or wastage of milk, ultimately maximizing productivity on the farm.

Part of the Cow Milking Machine Replacement Parts range, this claw is compatible with various milking machines, providing flexibility for farmers who may have different equipment setups. The compatibility with different machines makes it a versatile choice for dairy cow milking operations of all sizes.

The Air Outlet Dia. of 9.9mm ensures optimal airflow during the milking process, promoting efficient milk extraction while maintaining the comfort of the cows. Proper airflow is essential in preventing any discomfort or injury to the cows during milking, making this claw a reliable choice for both the farmers and the animals.

Features:

Product Name: Milking Machine Claw

Item: Cow Milking Machine Claw

Milk Outlet Diameter: 21.1mm

Air Outlet Dia.: 9.9mm

Cap Material: PSU

Model: HL-M03D-2

Technical Parameters:

Claw Base	PSU
Liner Outlet Diameter	13.5mm
Reference Brand	Milk-rite
Shut-off Valve	With Valve
Model	HL-M03D-2
Cap Material	PSU
Claw Type	Four-Prong
Air Outlet Dia.	9.9mm
Item	Cow Milking Machine Claw
Capacity	300CC

Applications:

The Milking Machine Claw from Chuangpu (Model: HL-M03D-2) is a high-quality product designed for use in cow milking machine systems. With its origin in China, this four-prong milk harvesting claw is a vital component for efficient milk extraction. Weighing 0.42kg and featuring a liner outlet diameter of 13.5mm, this claw is a reliable option for dairy farmers looking for durable and effective milking machine replacement parts.

The Chuangpu milk suction claw is suitable for a variety of product application occasions and scenarios. Whether you are operating a small-scale dairy farm or a larger commercial operation, this claw is designed to meet your milking needs. Its sturdy construction and efficient milk harvesting capabilities make it an ideal choice for daily milking routines.

One of the key benefits of the Chuangpu milk harvesting claw is its versatility. It can be easily integrated into existing cow milking machine setups, providing a seamless milking experience. The four-prong design ensures a secure connection during the milking process, while the PSU claw base adds stability and durability.

Whether you are looking to upgrade your current milking equipment or replace worn-out components, the Chuangpu milk harvesting claw offers a reliable solution. Its lightweight design and precise liner outlet diameter make it easy to handle and maintain, ensuring consistent performance over time.

In conclusion, the Chuangpu milk harvesting claw is a must-have for dairy farmers seeking a dependable and efficient milking solution. With its high-quality construction, four-prong design, and compatibility with cow milking machines, this claw is a valuable addition to any
