

Stainless Steel Claw Base Durable LUNIK 350CC Milk Collector for Cow Milking Machine Replacement Parts

Our Product Introduction

more products please visit us on mobilemilkingmachine.com

Basic Information

- Place of Origin: China
- Brand Name: Chuangpu
- Model Number: HL-M04
- Minimum Order Quantity: 1 PCS
- Price: Negotiable
- Packaging Details: Carton
- Delivery Time: 3-5 working days
- Payment Terms: T/T, Western Union,
- Supply Ability: 5000PCS /Month

Product Specification

- Range: Cow Milking Machine Replacement Parts
- Liner Outlet Diameter: 13mm
- Cap Material: PSU
- Air Outlet Dia.: 10mm
- Weight: 0.5kg
- Milk Outlet Diameter: 21mm
- Model: HL-M04
- Claw Type: Four-Prong
- Highlight: **Stainless Steel Milk Collector, Cow Milking Machine Milk Collector, Durable Milk Collector**

Product Description:

The Cow Milking Machine Claw is an essential component of any dairy operation, designed to efficiently and hygienically collect milk from cows during the milking process. This dairy machine claw features a sturdy Claw Base made of high-quality Stainless Steel, ensuring durability and longevity even in demanding farming environments.

The Four-Prong design of this dairy machine claw allows for secure and gentle attachment to the cow's udder, providing a stable connection throughout the milking process. The prongs are strategically positioned to optimize milk flow and minimize stress on the cow, resulting in a more comfortable milking experience for the animal.

With an Air Outlet Diameter of 10mm, this milk collector ensures efficient air circulation during milking, helping to maintain a steady vacuum level for consistent milk extraction. The Liner Outlet Diameter of 13mm provides ample space for milk to flow smoothly from the udder into the claw, preventing any blockages or disruptions in the milking process.

Whether you are a small-scale dairy farmer or managing a large commercial dairy operation, the Cow Milking Machine Claw is a reliable and efficient tool for collecting milk from your cows. Its durable construction and thoughtful design make it a valuable asset for any dairy business looking to streamline their milking process and improve overall productivity.

Investing in high-quality milking equipment like the Cow Milking Machine Claw can have a significant impact on the efficiency and profitability of your dairy operation. By ensuring a consistent and gentle milking experience for your cows, you can help maintain their health and well-being, ultimately leading to higher milk yields and better overall herd management.

Make the Cow Milking Machine Claw a part of your dairy operation today and experience the benefits of a reliable and efficient milk collector that is designed to meet the needs of modern dairy farmers. With its durable Stainless Steel construction, Four-Prong design, and optimized air and milk flow features, this dairy machine claw is a valuable addition to any milking setup.

Features:

Product Name: Milking Machine Claw
Milk Outlet Diameter: 21mm
Reference Brand: LUNIK
Claw Type: Four-Prong
Cap Material: PSU
Weight: 0.5kg

Technical Parameters:

| Technical Parameter | Value |
|----------------------|---------------------------------------|
| Air Outlet Dia. | 10mm |
| Item | Cow Milking Machine Claw |
| Weight | 0.5kg |
| Capacity | 350CC |
| Reference Brand | LUNIK |
| Claw Base | Stainless Steel |
| Cap Material | PSU |
| Milk Outlet Diameter | 21mm |
| Shut-off Valve | Without Valve |
| Range | Cow Milking Machine Replacement Parts |

Applications:

Chuangpu's HL-M04 Milking Machine Claw is a high-quality product designed for use in cow milking machines. With its lightweight design weighing only 0.5kg, this milking claw is easy to handle and install, making it a convenient choice for dairy farmers. The claw base is

made of durable stainless steel, ensuring longevity and reliability in demanding milking environments. The HL-M04 Milking Machine Claw is a versatile product suitable for various milking applications. Whether used in small-scale dairy farms or large commercial operations, this claw delivers consistent performance and efficiency. Its air outlet diameter of 10mm allows for smooth milk flow during the milking process, maximizing milk harvesting efficiency. This milking claw for cows is an essential component for any milking machine setup, providing a secure and reliable connection between the milking unit and the cow's udder. The Chuangpu HL-M04 is specially designed for cow milking machines, ensuring compatibility and optimal performance. Farmers can rely on the Chuangpu HL-M04 Milking Machine Claw to streamline their milking operations and improve overall productivity. Whether milking a small herd or a large group of cows, this milk harvesting claw delivers consistent results and helps maintain the health and well-being of the animals. Proudly made in China, the HL-M04 Milking Machine Claw reflects Chuangpu's commitment to quality and innovation in the dairy industry. Farmers can trust this product to meet their milking needs and exceed expectations in terms of performance and durability. Upgrade your cow milking machine with the HL-M04 Milking Machine Claw and experience the difference in efficiency and reliability.
