

## 14mm Liner Outlet Diameter Milking Machine Claw 380CC Capacity Suitable For All Milking Systems

### Our Product Introduction

#### Basic Information

- Place of Origin: China
- Brand Name: Chuangpu
- Model Number: HL-M04A
- Minimum Order Quantity: 1 PCS
- Price: Negotiable
- Packaging Details: Carton
- Delivery Time: 3-5 working days
- Payment Terms: T/T, Western Union,
- Supply Ability: 5000PCS /Month

#### Product Specification

- Claw Type: Four-Prong
- Item: Cow Milking Machine Claw
- Range: Cow Milking Machine Replacement Parts
- Air Outlet Dia.: 10mm
- Liner Outlet Diameter: 14mm
- Shut-off Valve: Without Valve And With Valve For Choosing
- Weight: 0.385kg
- Claw Base: PPSU
- Highlight: **All Milking Systems Milking Machine Claw ,  
14mm Milking Machine Claw,  
380CC Milking Machine Claw**

### Product Description:

The Milking Machine Claw is a vital component designed for efficient dairy cow milking processes. As part of the range of Cow Milking Machine Replacement Parts, this claw serves as a crucial milk collector during the milking process, ensuring a seamless milk harvesting experience.

With a Liner Outlet Diameter of 14mm, this milk harvesting claw is specifically crafted to fit various milking machines, allowing for secure and effective milk extraction. Weighing only 0.385kg, this lightweight yet durable claw is easy to handle and install, enhancing the overall milking efficiency.

The Milking Machine Claw features an Air Outlet Diameter of 10mm, facilitating the smooth flow of air during the milking process. This design helps maintain optimal suction levels, ensuring thorough and hygienic milk extraction from dairy cows.

Itemized as a Cow Milking Machine Claw, this product is a reliable and essential component for dairy farmers and milk producers. Its precise engineering and quality materials make it a dependable tool for daily milking operations, contributing to the overall productivity and success of dairy farms.

Whether you are a small-scale dairy farmer or a large commercial milk producer, the Milking Machine Claw offers consistent performance and longevity, making it a cost-effective solution for your milking needs. Its user-friendly design and compatibility with various milking machines make it a versatile and convenient choice for dairy cow milking processes.

In conclusion, the Milking Machine Claw is a top-quality milk collector designed to streamline milk harvesting operations and enhance dairy cow milking efficiency. With its precise specifications, lightweight construction, and durable materials, this dairy cow milking claw is a valuable investment for any dairy farm looking to optimize their milking processes.

### Features:

Product Name: Milking Machine Claw  
Cap Material: PPSU  
Liner Outlet Diameter: 14mm  
Air Outlet Dia.: 10mm  
Range: Cow Milking Machine Replacement Parts  
Shut-off Valve: Without Valve And With Valve For Choosing

### Technical Parameters:

Capacity	380CC
Liner Outlet Diameter	14mm
Shut-off Valve	Without Valve And With Valve For Choosing
Claw Type	Four-Prong
Model	HL-M04A
Item	Cow Milking Machine Claw
Milk Outlet Diameter	21mm
Cap Material	PPSU
Air Outlet Dia.	10mm
Range	Cow Milking Machine Replacement Parts

### Applications:

The Chuangpu HL-M04A Cow Milking Machine Claw is a high-quality product designed for use in various dairy farming settings. This milking cluster is a crucial component of a cow milk machine, providing efficient and reliable milking capabilities.

With a milk outlet diameter of 21mm and a liner outlet diameter of 14mm, this milking machine claw is suitable for use with different types of dairy cows. The precise engineering of the Chuangpu milking claw ensures a secure and airtight connection, allowing for smooth milk flow during the milking process.

Manufactured in China, the Chuangpu HL-M04A cow milk machine claw is built to meet the highest standards of quality and performance. It is lightweight, weighing only 0.385kg, making it easy to handle and use during milking operations.

The air outlet diameter of 10mm ensures proper air circulation within the milking cluster, helping to maintain optimal milking conditions for the cows. Whether used in small-scale dairy farms or larger commercial operations, this milking machine claw is versatile and reliable. Whether you are milking a few cows or managing a large herd, the Chuangpu HL-M04A Cow Milking Machine Claw is a dependable choice for ensuring efficient and hygienic milking processes. Trust in the quality and performance of this milking cluster to meet your dairy farming needs.
