### Product Description:

One of the key features of this milking machine claw is its Claw Connection Milk Tube, which has dimensions of 14x24mm. This sizing ensures a secure and reliable connection to the milk suction system, allowing for smooth milk flow during the milking process. The Claw Connection Milk Liner of this dairy machine claw is designed with a 8.7mm Inner Diameter, which is ideal for accommodating various teat sizes and shapes. This liner ensures a snug fit over the teats, creating a proper seal for effective milk harvesting. With a Four-Teat claw type, this milking machine claw is capable of simultaneously milking four teats, increasing efficiency and reducing milking time. The design of the claw allows for gentle yet thorough milk extraction, ensuring the well-being and comfort of the cows during the milking process.

Whether you are a small-scale dairy farmer or a commercial dairy operation, the Milking Machine Claw is a reliable and essential tool for milk extraction. Its sturdy construction and efficient design make it a valuable asset in any dairy setting.

Invest in the quality and performance of your milking system with the HL-M06 Cow Milking Machine Claw. Experience the convenience and effectiveness of this milk suction claw for your milk harvesting needs. Trust in the durability and functionality of this essential dairy machine claw for optimal milk production.

### Features:

Product Name: Milking Machine Claw

Model: HL-M06

Claw Connection Milk Liner: With 8.7mm Inner Dia.

Item: Cow Milking Machine Claw

Claw Type: Four-Teat

Material: Iron

### Technical Parameters:

Usage	Cow Milking Machine
Type	Piston Milking Machine Claw
Claw Connection Milk Tube	14x24mm
Material	Iron
Model	HL-M06
Claw Connection Milk Liner	With 8.7mm Inner Dia.
Application	Dairy Farm
Item	Cow Milking Machine Claw
Claw Type	Four-Teat

### Applications:

The Chuangpu HL-M06 cow milk machine claw is a high-quality dairy machine claw designed for efficient milking of cows. With its four-teat claw type, this suction claw for cattle provides a reliable and gentle milking experience for dairy farmers.

Originating from China, the HL-M06 model is known for its durability and performance, making it suitable for various milking applications. The claw connection milk tube of 14x24mm ensures a secure fit and optimal milk flow during the milking process.

Whether used in small-scale dairy farms or large commercial operations, the Chuangpu HL-M06 claw is a versatile tool that can streamline the milking process. Its claw connection milk liner with an 8.7mm inner diameter is designed to accommodate different cow teat sizes, making it suitable for a wide range of dairy cows.

Farmers can rely on the Chuangpu HL-M06 cow milk machine claw to consistently deliver efficient and hygienic milking results. The durable construction of the claw ensures long-term performance, while its ergonomic design makes it easy to use and maintain.

From daily milking routines to special milking occasions, the Chuangpu HL-M06 claw is a valuable addition to any dairy farm. Its precision engineering and reliable performance make it a trusted choice for dairy farmers looking to optimize their milking operations.
