Product Description:

Our Milk Filter is a top-of-the-line product that guarantees optimal performance in safeguarding your milk source from potential contaminants. With its innovative Two-Stage design, this filter ensures thorough straining and removal of impurities, making it an essential tool in maintaining the quality of your dairy products.

Constructed from durable PE material, this Milk Filter is built to withstand frequent use and deliver consistent results. Its high durability ensures a long lifespan, making it a valuable investment for any dairy operation.

One of the key benefits of our Milk Filter is its Food Grade quality, providing you with peace of mind that your milk is being filtered through a safe and hygienic material. This feature is essential in maintaining the purity and integrity of your milk source, safeguarding it from potential contamination.

With a generous volume capacity of 8L, our Milk Filter is suitable for handling large quantities of milk, making it ideal for both small-scale and commercial dairy operations. Its ample capacity reduces the need for frequent emptying and refilling, allowing for a more efficient filtering process.

The Milk Filter Socket included in this product ensures a secure and stable connection with your milk container, preventing any leaks or spills during the filtering process. This convenient feature enhances the overall usability of the filter, making it easier to achieve consistent and reliable results.

Whether you are a dairy farmer, milk producer, or cheese maker, our Milk Filter is a must-have tool for maintaining the quality and safety of your milk source. Its advanced filtration capabilities, durable construction, and user-friendly design make it a valuable asset in any dairy operation.

Invest in our Milk Filter today and experience the difference it can make in ensuring the purity and quality of your dairy products. Trust in its high durability, Food Grade material, and efficient Two-Stage filtration system to provide you with reliable performance and peace of mind.

Features:

Product Name: Milk Filter

Reusable: Yes

Durability: High

Weight: 1.13KG

Easy To Clean: Yes

Name: Milk Quarter

Technical Parameters:

Reusable	Yes
Rust Resistant	Yes
Handle	Yes
Material	PE
Usage	Fill With Milk Source Of Infected Mastitis
Easy To Clean	Yes
Durability	High
Name	Milk Quarter
Weight	1.13KG
Volume	8L

Applications:

The Chuangpu HL-MP56 Milk Filter is an essential tool for all your milk straining needs. With its superior design and high durability, this filtrated milk filter is perfect for a variety of applications and scenarios.

Whether you are a dairy farmer, a homesteader, or simply a milk enthusiast, this Chuangpu milk filter from China is sure to meet your needs. Its 8L volume capacity allows you to strain large quantities of milk with ease, making it ideal for both commercial and home use. The built-in handle on this milk straining filter makes it convenient to use, allowing you to pour and strain milk effortlessly. Its food-grade material ensures that your milk remains safe and free from contaminants, giving you peace of mind with every use. One of the standout features of the Chuangpu HL-MP56 Milk Filter is its reusability. This means that you can use it over and over again, making it a cost-effective and eco-friendly choice for your milk straining needs. Whether you are filtering raw milk for cheese making, removing impurities from fresh milk, or simply clarifying store-bought milk, the Chuangpu HL-MP56 Milk Filter is the perfect tool for the job. Its high durability ensures that it will withstand frequent use and cleaning, making it a reliable companion in your milk processing tasks.

**产品用途：用于分离患有乳房炎奶头奶，防止感染奶。在挤患有乳房炎奶头时，
可以防止含细菌奶混入优质奶中，防止出血，防止感染。**
