

Cow Goat Milking Machine 1440r/min High Speed Vacuum Pump 1500L For Milking System

Our Product Introduction

more products please visit us on mobilemilkingmachine.com

Basic Information

- Place of Origin: China
- Brand Name: Chuangpu
- Model Number: HL-V1500
- Minimum Order Quantity: One Set
- Price: Negotiable
- Packaging Details: Wooden Case
- Delivery Time: 3-5 working days
- Payment Terms: T/T, Western Union,
- Supply Ability: 500SETS/Month

Product Specification

- Application: Cow And Goat Milking Machine
- Model: HL-V1500
- Ultimate Pressure: ≤ 90 Mpa
- Noise: ≤ 50 Db(A)
- Motor Power: 4Kw
- Pump Vane Size: 164x60x6mm
- Delivery Port: Shanghai Port
- Material: Iron
- Highlight: **High Speed Milking Vacuum Pump, 1440r/min Milking Vacuum Pump, 1500L Milking Vacuum Pump**

Product Description:

The Milking Vacuum Pump is engineered to provide an Ultimate Pressure of $\leq 90\text{Mpa}$, ensuring optimal suction power to effectively extract milk from dairy animals. This high level of suction pressure guarantees thorough and efficient milking, making it an essential tool for dairy farms of all sizes.

One of the standout features of our suction milking pump is its remarkably low Noise level of $\leq 50\text{Db(A)}$. This quiet operation is not only beneficial for the comfort of the animals during milking but also creates a more peaceful working environment for the operators. Say goodbye to noisy milking sessions with our advanced Milking Vacuum Pump.

Operating at a Speed of 1440r/min, this milking pump offers a consistent and reliable performance, ensuring smooth milking processes with minimal downtime. The high-speed operation of the pump contributes to efficient milk extraction, allowing dairy farmers to maximize their productivity and throughput.

Constructed from durable Iron material, our Milking Vacuum Pump is built to withstand the rigors of daily milking operations. The robust construction ensures longevity and durability, making it a reliable investment for dairy farmers looking for a dependable suction pump for milking.

Whether you have a small-scale dairy farm or a large commercial operation, our Milking Vacuum Pump is designed to meet your milking needs effectively and efficiently. Experience the convenience and efficiency of our suction milking pump and revolutionize the way you approach dairy milking.

Features:

Product Name: Milking Vacuum Pump
 Volume: 1500L
 Weight: 60kg
 Vacuum Degree: 50Kpa
 Material: Iron
 Name: 1500L Rotary Vacuum Pump

Technical Parameters:

Noise	$\leq 50\text{Db(A)}$
Volume	1500L
Speed	1440r/min
Name	1500L Rotary Vacuum Pump
Motor Power	4Kw
Weight	60kg
Vacuum Degree	50Kpa
Pump Vane Size	164x60x6mm
Delivery Port	Shanghai Port
Model	HL-V1500

Applications:

The Chuangpu HL-V1500 Milking Vacuum Pump is a high-quality suction pump for milking designed to meet the demands of dairy farms and milking operations. Originating from China, this reliable pump is specifically tailored for use in milking systems, providing efficient milk extraction and optimal vacuum pressure for dairy farmers.

With a powerful motor speed of 1440r/min and a weight of 60kg, the Chuangpu HL-V1500 offers a robust performance for continuous milking operations. The pump vane size of 164x60x6mm ensures a smooth and consistent vacuum flow, crucial for maintaining the milking process's efficiency.

The ultimate pressure of $\leq 90\text{Mpa}$ guarantees a stable vacuum level, essential for proper milking and preventing any damage to the

animals. The 4Kw motor power drives the pump efficiently, ensuring reliable and consistent operation throughout the milking process. Whether used in small-scale dairy farms or large commercial operations, the Chuangpu HL-V1500 Milking Vacuum Pump is versatile and suitable for various milking application occasions. Its durable construction and efficient performance make it an ideal choice for dairy farmers looking to optimize their milking system vacuum pump.

From milking parlors to mobile milking setups, this vacuum pump excels in different scenarios, providing dairy farmers with a dependable solution for their milk extraction needs. Trust in the Chuangpu HL-V1500 to deliver consistent vacuum pressure and reliable operation for a smooth and efficient milking process.

Product parameters

Model	HL-V250	HL-V300	HL-V550	HL-V850	HL-V1500	HL-V2100	HL-VD250
