Product Description:

Introducing the Vacuum Regulator for Milking Parlor Parts, model HL-MP44, designed to enhance the efficiency and performance of your milking parlor setup. This essential component is compatible with most milking parlors, making it a versatile choice for bovine milking contrivances across the industry.

The Vacuum Regulator plays a crucial role in maintaining optimal vacuum levels during the milking process, ensuring a consistent and gentle milking experience for the cows. With a range of 30 - 60 KPa, this regulator provides the flexibility to adjust vacuum levels according to your specific milking requirements, making it a valuable asset for any dairy farm.

Weighing just 0.6KG, the Vacuum Regulator is lightweight yet durable, making it easy to install and handle during routine maintenance tasks. Its sturdy construction ensures longevity and reliability, offering peace of mind to dairy farmers relying on milk harvesting machinery to streamline their operations.

Whether you are in need of cow industry supplies or looking to upgrade your milking parlor with top-quality components, the Vacuum Regulator is a must-have accessory that delivers consistent performance and efficiency. Invest in this essential part today and experience the difference it can make in optimizing your milking process.

Features:

Product Name: Milking Parlor Parts

Payment Term: T/T, Western Union, MoneyGram

Range: 30 - 60 KPa

Usage: Adjusting The Vacuum Pressure

Name: Vacuum Regulator

Compatibility: Fits Most Milking Parlors

Technical Parameters:

Name	Vacuum Regulator
Weight	0.6KG
Animal	Goats, Sheep, Cows, Cattles
Model	HL-MP44
Payment Term	T/T, Western Union, MoneyGram
Usage	Adjusting The Vacuum Pressure
Compatibility	Fits Most Milking Parlors
Matching Capacity	50 - 3500 Liters Per Minute
Range	30 - 60 KPa
Type	Milking Parlor Vacuum Regulator

Applications:

The Milking Parlor Parts product from Chuangpu, model number HL-MP44, is a versatile and essential component for farmyard dairy contraptions. Designed and manufactured in China, this Vacuum Regulator is specifically tailored for use in milking parlors catering to goats, sheep, cows, and cattles.

With a matching capacity ranging from 50 to 3500 liters per minute, this vacuum regulator is ideal for a wide range of milking operations, from small-scale goat farms to large cattle milking apparatus. The adjustable range of vacuum pressure, from 30 to 60 KPa, allows for precise control and customization based on the specific needs of the dairy animals.

Whether it's a bustling barnyard milk collection routine or a more controlled milking parlor setup, the Chuangpu Vacuum Regulator ensures efficient and reliable performance. Its durable construction and reliable functionality make it a must-have tool for dairy farmers looking to streamline their milking process and optimize milk production.

From managing vacuum pressure to maintaining consistent milking performance, this Milking Parlor Part is a valuable asset for any dairy

operation. Its compatibility with different animal types and varying milking capacities make it a versatile solution for farmers seeking a dependable and efficient milking regulator.

Style 1: HL-MP43A

Product material: Plastic

Voltage regulation range: 30-60Kpa

Supporting ability: 50-3000 L/min

Diameter: 16.5mm

Weight: 0.09KG

Usage: Used to adjust the vacuum range of small milking machines

Style 2: HL-MP43A

Product material: Plastic

Voltage regulation range: 30-60Kpa

Supporting ability: 50-3000 L/min

Diameter: 19mm

Weight: 0.6KG

Usage: Used to adjust the vacuum range of large milking machines
