Product Description:

The Milking Machine Bucket is a must-have equipment for dairy farmers and cattle breeders looking to streamline their milking process. This stainless steel milk bucket, also known as a milk pail, is designed to efficiently collect and store cow milk during the milking process. The Milking Machine Bucket comes with a convenient lid, ensuring that the milk is securely stored and protected from external contaminants. The lid also helps in maintaining the freshness and quality of the collected milk, making it ideal for dairy cattle milkers who prioritize hygiene and cleanliness.

With a generous volume of 25 liters (25 kg), this Electric Milking Machine Bucket allows for efficient milk collection without the need for frequent emptying. The large capacity makes it suitable for use in commercial dairy farms as well as small-scale cattle breeding operations.

Constructed from durable stainless steel, this Milk Pail is built to withstand the rigors of daily milking operations. The sturdy material not only ensures longevity but also facilitates easy cleaning and maintenance, essential for dairy farmers looking to uphold high standards of milk production.

The silver color of the Milking Machine Bucket gives it a sleek and professional appearance, adding a touch of modernity to the milking process. The aesthetically pleasing design is complemented by the practicality and functionality of the bucket, making it a versatile and reliable tool for dairy cattle milk collectors.

Featuring a top inlet type, this Dairy Cattle Milker is designed for easy connection to milking machines and vacuum systems. The efficient inlet design allows for smooth milk flow during the milking process, minimizing spillage and ensuring optimal milk collection efficiency.

Whether you are a seasoned dairy farmer or a novice cattle breeder, the Milking Machine Bucket is a valuable asset that can enhance your milking operations. Its functional design, durable construction, and ample volume make it a practical and efficient solution for collecting and storing cow milk.

Features:

Product Name: Milking Machine Bucket

Weight: 3.4KG

Volume: 25L / 25 KG

Package Includes: 1 Milking Machine Bucket

Color: Silver

Lid Type: Hinged

Technical Parameters:

Package Includes	1 Milking Machine Bucket
Mouth diameter	175mm
Compatibility	Fits Most Milking Machines
Model	HL-B01
Lid Type	Hinged
Bottom diameter	305mm
Color	Silver
Usage	For Milking Cows And Collecting Milk
Item	Stainless Steel Milk Bucket / Milk Pail

Applications:

The Chuangpu HL-B01 Stainless Steel Milk Bucket, designed and manufactured in China, is a versatile and essential tool for dairy cattle milkers and livestock milking devices. Its round shape and durable stainless steel construction make it suitable for various milking applications.

One of the primary product application occasions for the HL-B01 Milk Bucket is during the milking process of cows. Dairy farmers and livestock owners can use this milk pail to collect fresh milk efficiently and hygienically. The sturdy construction of the bucket ensures that

it can withstand the rigorous demands of daily milking routines. Whether milking by hand or using a milking machine, the Chuangpu HL-B01 Milk Bucket is a reliable companion for gathering and transporting milk from dairy cows. The hinged lid type provides easy access to the contents while keeping them securely stored during milking operations. Due to its durable stainless steel material and practical design, the HL-B01 Milk Bucket is suitable for a wide range of scenarios on dairy farms, livestock facilities, and milk processing plants. Its versatility and ease of use make it a valuable asset for any operation requiring efficient milk collection. In conclusion, the Chuangpu HL-B01 Stainless Steel Milk Bucket is a must-have tool for dairy cattle milkers and livestock milking devices. Its round shape, sturdy construction, and hinged lid design make it a reliable and practical solution for collecting milk during various milking occasions.

PRODUCT DESCRIPTION

LONG SERVICE LIFE, NO RUST, IDEAL CONTAINER FOR MILKING FACILITIES SUCH AS MILK PABLORS AND MILKING MACHINES.

Product name: stainless steel milking barrel
Model: HL-B01
Product introduction: It is made of high-quality stainless steel 304, the whole is well welded, the inside and the outside are precisely polished, the seal is hygienic, easy to clean, long service life, and not easy to rust. It is an ideal container for milking equipment such as milking parlors and milking machines.

Product name: Transparent Milking Bucket
Model: HL-B02
Product introduction: It is made of PC material, which can visually observe the barrel of milk. The overall workmanship is good, and the high transparency with scale makes the buyer's operation more convenient and quick. The milking barrel has a smooth surface, easy to clean, and hygienic sealing. It is a good choice for a milking machine.
