Product Description:

The Mobile Milking Container is a top-of-the-line milking machine bucket designed to provide efficient and convenient milk extraction for dairy farmers. This versatile Udder Pumping Bucket is compatible with most milking machines, ensuring a seamless integration with your existing milking equipment.

Equipped with a convenient lid, this milking machine bucket helps to maintain optimal hygiene levels during the milking process. The secure lid ensures that the milk remains uncontaminated and safe for consumption, providing peace of mind for both the farmer and the consumers.

The Milking Machine Bucket boasts a bottom diameter of 325mm, offering ample space for collecting milk during each milking session. The generous capacity of the bucket minimizes the need for frequent emptying, allowing for a more streamlined milking process.

With a mouth diameter of 190mm, this Automatic Milk Extractor facilitates easy pouring and extraction of milk without any spills or wastage. The wide opening of the bucket enables swift transfer of milk from the udder to the container, ensuring efficiency and precision in milk collection.

Each purchase of the Milking Machine Bucket includes 1 high-quality container, providing dairy farmers with the essential equipment needed for effective milk extraction. With this comprehensive package, farmers can immediately enhance their milking operations and experience improved productivity.

Features:

Product Name: Milking Machine Bucket

Bottom diameter: 325mm

Model: HL-B02

Shape: Round

Volume: 25L / 25 KG

Package Includes: 1 Milking Machine Bucket
