### Product Description:

Introducing the Udder Pumping Bucket, a high-quality milking machine bucket designed to streamline the milking process and enhance efficiency on your farm. This Milking Vacuum Pump Bucket is an essential component for any livestock operation, providing a reliable and convenient solution for milking dairy animals.

The package includes 1 Milking Machine Bucket, complete with a height of 485mm to accommodate various milking needs. The clear milking bucket, also known as a Milking Pail, offers visibility during the milking process, allowing for easy monitoring of milk levels and flow.

Equipped with 2 lid ports, this Livestock Milking Device offers flexibility and convenience when attaching the milking equipment. The dual ports ensure seamless connectivity for a smooth and efficient milking experience.

When it comes to cleaning, this milking machine bucket requires manual cleaning to maintain hygiene and ensure optimal performance. By following the recommended cleaning method, you can prolong the lifespan of the bucket and uphold the quality of your milk production.

### Features:

Product Name: Milking Machine Bucket

Color: Transparent

Material: PC

Model: HL-B02A

Mouth diameter: 190mm

Volume: 32L / 32KG

### Technical Parameters:

Height	485mm
Compatibility	Fits Most Milking Machines
Item	Clear Milking Bucket / Milking Pail
Features	Durable, Easy To Clean, Rust Resistant
Lid	Yes
Material	PC
Cleaning Method	Manual
Package Includes	1 Milking Machine Bucket
Inlet Type	Top
Volume	32L / 32KG

### Applications:

The Chuangpu HL-B02A Milking Machine Bucket is a versatile and essential component for any livestock milking setup. With its origin in China, this milking bucket is designed to provide efficient and reliable milk suction for various farm animals.

The HL-B02A Milking Machine Bucket is suitable for a wide range of product application occasions and scenarios due to its top inlet type, making it convenient to connect to most milking machines. The bucket's compatibility ensures that it fits most milking machines, allowing for seamless integration into existing milking systems.

Standing at a height of 485mm, this milking bucket is ergonomically designed for ease of use during milking sessions. The included lid adds an extra layer of protection to the milk inside, maintaining its quality and cleanliness.

Whether used in small-scale dairy farms or larger commercial operations, the Chuangpu HL-B02A Milking Machine Bucket proves to be a reliable and efficient farm milk suction unit. Its manual cleaning method ensures easy maintenance and upkeep, making it a practical choice for farmers looking to streamline their milking processes.

Overall, the HL-B02A Milking Machine Bucket is a must-have accessory for any farm looking to enhance their livestock milking device. Its sturdy construction, top inlet type, and compatibility with most milking machines make it a versatile and essential component for efficient milk suction in various farm settings.
