### Product Description:

The Milking Machine Bucket is a versatile and essential tool for dairy farmers looking to streamline their milking process. Standing at a height of 485mm, this milk bucket is designed to accommodate the needs of various dairy operations, providing a convenient and efficient solution for milking cows.

Compatible with most milking machines, the Milking Machine Bucket offers a seamless integration into existing milking setups, ensuring a hassle-free milking experience. Whether you are using a traditional vacuum-powered system or a more modern pulsation-based machine, this bucket is ready to deliver consistent performance.

The long milk tube included with the bucket extends up to 3 meters, allowing for flexibility in positioning and ensuring that the bucket can easily reach the milking machine. This feature is particularly useful for large dairy farms or setups where the milking equipment is spread out over a wide area, providing convenience and ease of use.

Featuring 3 lid ports, the Milking Machine Bucket offers versatility and functionality. These ports allow for easy access during the milking process, enabling efficient attachment and detachment of tubes and ensuring a smooth operation. With 3 ports available, you have the flexibility to customize your setup according to your specific requirements.

The Milking Machine Bucket is specifically designed for milking cows, making it an ideal choice for dairy farmers focused on bovine milk production. Whether you are milking a single cow or managing a larger herd, this bucket is equipped to handle the task with ease and efficiency. Its durable construction and reliable performance make it a dependable tool for daily milking operations.

Also known as an Udder Pumping Bucket or a Mobile Milking Container, this versatile product offers dairy farmers a practical solution for milking their cows effectively. The convenience of a dedicated milking bucket cannot be overstated, providing a hygienic and controlled environment for collecting and transporting fresh milk from the cow to the storage facilities.

In conclusion, the Milking Machine Bucket is a must-have tool for dairy farmers seeking a reliable and efficient solution for milking cows. With its height of 485mm, compatibility with most milking machines, 3-meter long milk tube, 3 lid ports, and suitability for cows, this bucket offers the perfect combination of convenience, functionality, and performance. Whether you are a small-scale dairy operation or a larger commercial farm, this milk bucket is designed to meet your milking needs with precision and reliability.

### Features:

Product Name: Milking Machine Bucket Group

Buckets Capacity: 25L

Lid Port: 3 Ports

Pulsation Rate: 60:40

Compatibility: Fits Most Milking Machines

Material: Stainless Steel

### Technical Parameters:

Weight	8KG
Compatibility	Fits Most Milking Machines
Material	Stainless Steel
Milk Claw Type	240CC Claw With 4 Teat Cups
Lid Port	3 Ports
Pulsator	L80 Pneumatic Pulsator
Animal	Cow
Long Pulse Tube	3M
Pulsation Rate	60:40
Liner Type	Rubber

### Applications:

The Chuangpu HL-MP25 Cow Milking Bucket Group is a versatile and efficient solution for dairy farmers looking to streamline their milking process. With a generous capacity of 25L, this electric milking machine bucket is designed to handle the milking needs of multiple cows in one go, making it ideal for small to medium-sized dairy farms.

The long pulse tube, measuring 3M in length, provides flexibility and ease of use, allowing farmers to move around comfortably during the milking process. The compatibility of this udder pumping bucket with most milking machines ensures seamless integration into existing milking setups, saving time and effort for farmers.

Whether you are looking to upgrade your current milking equipment or invest in a reliable mobile milking container for on-the-go milking operations, the Chuangpu HL-MP25 Cow Milking Bucket Group is a dependable choice. Its durable construction and efficient design make it suitable for various application occasions and scenarios.

From daily milking routines on the farm to mobile milking setups at agricultural events or temporary milking stations, this milking machine bucket offers convenience and performance. Accepted payment methods such as T/T, Paypal, and Western Union make purchasing this product hassle-free and accessible to dairy farmers worldwide.
