Basic Information

- Place of Origin: China
- Brand Name: Chuangpu
- Model Number: HL-MP25A
- Minimum Order Quantity: One Set
- Price: Negotiable
- Packaging Details: Carton
- Delivery Time: 3-5 working days
- Payment Terms: T/T, Western Union,
- Supply Ability: 500SETS/Month

Product Specification

- Pulsation Rate: 60:40
- Name: Goat Milking Bucket Group
- Liner Type: Rubber
- Compatibility: Fits Most Milking Machines
- Height: 485mm
- Pulsator: L80 Pneumatic Pulsator
- Buckets Capacity: 25L
- Weight: 8KG
- Highlight: 25L Stainless Steel Milking Bucket,
3 Ports Stainless Steel Milking Bucket,
25L Milking Machine Bucket

Product Description:

A Milking Machine Bucket is an essential component of any livestock milking device, providing a convenient and efficient way to collect and transport milk from animals such as goats and sheep. This particular Milk Bucket is designed for use with goat and sheep and comes with a Goat Milk Claw featuring 2 teat cups for effective milking.

The Rubber Liner used in this Milking Machine Bucket ensures a secure and hygienic environment for the milk, preventing contamination and maintaining the quality of the collected product. With a Lid Port that includes 3 ports, this Mobile Milking Container offers flexibility and ease of use during the milking process.

One of the key features of this Milking Machine Bucket is the inclusion of the L80 Pneumatic Pulsator, which helps regulate the milking process and ensures a gentle and efficient extraction of milk from the animals. This pulsator is designed to provide optimal performance while keeping the animals comfortable during milking.

Whether you are a small-scale farmer or a commercial dairy producer, having a reliable and durable Milking Machine Bucket is essential for the smooth operation of your milking routine. This Milk Bucket is designed to withstand the rigors of daily use and provide consistent performance for your milking needs.

Investing in a quality Milking Machine Bucket like this one can help streamline your milking process, improve efficiency, and ensure the health and well-being of your animals. With its goat milk claw, rubber liner, 3-port lid, and L80 pneumatic pulsator, this Milking Machine Bucket is a versatile and practical choice for any goat or sheep owner.

Features:

Product Name: Milking Machine Bucket Group

Name: Goat Milking Bucket Group

Long Pulse Tube: 3M

Milk Claw Type: Goat Milk Claw With 2 Teat Cups

Pulsation Rate: 60:40

Weight: 8KG

Technical Parameters:

Milk Claw Type	Goat Milk Claw With 2 Teat Cups
Lid Port	3 Ports
Pulsation Rate	60:40
Pulsator	L80 Pneumatic Pulsator
Liner Type	Rubber
Long Milk Tube	3M
Name	Goat Milking Bucket Group
Material	Stainless Steel
Long Pulse Tube	3M
Animal	Goat And Sheep

Applications:

The Chuangpu HL-MP25A Goat Milking Bucket Group is a versatile and essential piece of equipment designed for milking goats and sheep. This high-quality milk bucket is a vital component of any milking operation, providing a convenient and efficient way to collect and transport milk from livestock.

Whether you are a small-scale farmer or a commercial dairy producer, the HL-MP25A Milk Bucket is ideal for a wide range of applications. Its compatibility with most milking machines makes it a convenient and practical choice for any milking setup.

The lightweight design of the Chuangpu Goat Milking Bucket Group, weighing only 8KG, ensures easy handling and maneuverability during the milking process. The 485mm height of the bucket provides ample space for collecting milk without the risk of spillage.

Use the HL-MP25A Milk Bucket for mobile milking operations, allowing you to easily move from one animal to another with the livestock milking device in tow. Its sturdy construction ensures durability, making it suitable for daily use in various farming environments. Whether you are milking goats or sheep, the Chuangpu HL-MP25A Goat Milking Bucket Group offers a reliable and efficient solution for your milking needs. Its practical design, originating from China, makes it a valuable addition to any dairy operation.
