Product Description:

The Milking Machine Bucket Lid is an essential accessory for any dairy farm or milk processing facility. This product is designed to fit a Milk Pail or Milking Vacuum Pump Bucket with a 175mm mouth diameter, providing a secure seal to ensure efficient milking operations. With a manual cleaning method, this Milking Machine Bucket Lid is easy to maintain and keep sanitized for optimal milking hygiene. The lid features 2 ports with a diameter of 19mm each, allowing for seamless connection to milking equipment and accessories. Designed for compatibility with a variety of Milking Vacuum Pump Buckets, this lid is a versatile addition to your milking setup. Whether you have a stationary milking machine or a mobile milking container, this lid will help streamline your milking process. Featuring durable construction and a reliable design, the Milking Machine Bucket Lid is built to withstand the rigors of daily milking operations. Its sturdy build ensures a secure fit on the milk pail or milking bucket, preventing any leaks or spills during the milking process. Ensure your milking equipment is complete and functional with the addition of the Milking Machine Bucket Lid. With its convenient ports and compatibility with various milking setups, this lid is a must-have for any dairy farmer or milk processing facility.

Features:

Product Name: Milking Machine Bucket

Cleaning Method: Manual

Material: Stainless Steel

Lid Ports: 2

Item: Milking Machine Bucket Lid

Durability: Rust Resistant

Technical Parameters:

Item	Milking Machine Bucket Lid
Lid Ports	2
Sealing Ring	Rubber
Port Diameter	19mm
Compatibility	Fits 175mm Mouth Diameter Milking Machine Bucket
Material	Stainless Steel
Durability	Rust Resistant
Cleaning Method	Manual

Applications:

The Chuangpu HL-MP46 Milking Machine Bucket is a versatile product suitable for a variety of milking applications. It is designed to be used with an Electric Milking Machine Bucket, making it ideal for dairy farms, milk processing plants, and other agricultural settings. With a sturdy stainless steel construction, this Milking Bucket Pail is durable and reliable for daily use. The bucket is compatible with milking machines that have a 175mm Mouth Diameter, ensuring a secure fit and efficient milk collection process. One of the key features of this Cow Milk Collector is the rubber sealing ring on the lid, which helps to prevent any leaks or spills during the milking process. This ensures that the milk is collected safely and hygienically. Due to its manual cleaning method, the Milking Machine Bucket is easy to maintain and keep clean after each use. This makes it a convenient and practical choice for busy farming operations. Whether you are a small-scale dairy farmer or a large commercial milk producer, the Chuangpu HL-MP46 Milking Machine Bucket is a reliable and efficient tool for collecting and storing fresh milk. Its high-quality materials and precise design make it a valuable asset for any milking operation. Bring convenience and efficiency to your milking process with the Chuangpu Milking Machine Bucket. Made in China, this product combines reliable performance with ease of use, making it a must-have for anyone in the dairy industry.
