

Customizable Milk Machine Vacuum Hosing For Milking Machine

Our Product Introduction

more products please visit us on mobilemilkingmachine.com

Basic Information

- Place of Origin: China
- Brand Name: Chuangpu
- Model Number: HL-MP34A
- Minimum Order Quantity: 1 Roll
- Price: Negotiable
- Packaging Details: Carton
- Delivery Time: 3-5 working days
- Payment Terms: T/T, Western Union,
- Supply Ability: 5000 Roll/Month

Product Specification

- Features: Flexible, Durable, Non-toxic
- Usage: For Vacuum Deliver
- Inner Diameter: 7.5mm
- Model: HL-MP34A
- Color: Black
- Name: Rubber Vacuum Hosing
- Material: Food-grade Rubber
- Temperature Range: -40°C To 120°C
- Highlight: **Milk Machine Vacuum Hosing,
Milking Machine Vacuum Hosing,
Customizable Milk Machine Vacuum Hosing**

Product Description:

The Milk Machine Tube is an essential component for any dairy operation looking to streamline their milking process. Designed to withstand a wide temperature range of -40°C to 120°C, this tube ensures reliable performance in various environmental conditions. With an inner diameter of 7.5mm, the Milk Machine Tube is optimized for efficient milk flow, allowing for smooth and consistent milking operations. Its working pressure of 0.4-0.5MPa makes it suitable for use with vacuum milker systems, ensuring a secure and efficient milking process.

One of the standout features of the Milk Machine Tube is its flexibility, which allows for easy maneuverability and installation. This flexibility is complemented by the tube's durability, ensuring long-lasting performance even under high-pressure milking conditions. Additionally, the tube is non-toxic, making it safe for use with milk and dairy products.

Each roll of the Milk Machine Tube comes in a length of 50 meters, providing ample material for setting up or replacing tubing in your milking system. This generous length minimizes the need for frequent replacements, saving time and resources in the long run.

Whether you are upgrading your existing milking system or setting up a new one, the Milk Machine Tube offers the reliability and performance you need for efficient milk extraction. Its versatile design and high-quality construction make it a valuable asset for dairy farmers and milk processing facilities.

Features:

Product Name: Milking Machine Tube

Temperature Range: -40°C To 120°C

Color: Black

Model: HL-MP34A

Usage: For Vacuum Delivery

Application: Milking Machine, Dairy Farm

Technical Parameters:

Usage	For Vacuum Delivery
Temperature Range	-40°C to 120°C
Length	50 Meters for Each Roll
Model	HL-MP34A
Application	Milking Machine, Dairy Farm
Name	Rubber Vacuum Hosing
Color	Black
Features	Flexible, Durable, Non-toxic
Outer Diameter	13.5mm
Working Pressure	Milking with 0.4-0.5MPa

Applications:

The Chuangpu HL-MP34A Milking Machine Tube is a high-quality rubber vacuum hosing designed for use in dairy farms. With a length of 50 meters for each roll, this vacuum tube is perfect for milking machines and milk extraction pipes.

Manufactured in China, this durable tube is built to withstand the working pressure of milking with 0.4-0.5MPa, making it reliable and efficient for daily use in dairy farm operations.

The black color of the tube not only gives it a sleek appearance but also helps in easy maintenance and cleaning. The Chuangpu Milking Machine Tube is specifically crafted for the demanding needs of dairy farm milking hoses, ensuring a seamless milking process.

Whether you are setting up a new dairy farm or upgrading your existing milking equipment, the HL-MP34A model offers a dependable solution for your milking machine requirements. Its versatility and compatibility with various milking systems make it a valuable addition to any dairy farm setting.

Experience hassle-free milk extraction with the Chuangpu Milking Machine Tube, the vacuum tube that meets the highest standards of quality and performance in the industry. Invest in this essential milking accessory to streamline your dairy farm operations and ensure efficient milk production.
