

7.5x13.5mm Silicone Soft Elastic Vacuum Hose For Improved Milking Efficiency

Our Product Introduction

more products please visit us on mobilemilkingmachine.com

Basic Information

- Place of Origin: China
- Brand Name: Chuangpu
- Model Number: HL-MP35E
- Minimum Order Quantity: 1 Roll
- Price: Negotiable
- Packaging Details: Beaded Bag
- Delivery Time: 3-5 working days
- Payment Terms: T/T, Western Union,
- Supply Ability: 5000 Roll/Month

Product Specification

- Features: Flexible, Durable, Non-toxic
- Usage: For Delivering Vacuum
- Outer Diameter: 13.5
- Length: 50 Meters For Each Roll
- Inner Diameter: 7.5
- Temperature Range: -40°C To 120°C
- Material: Food-grade Silicone
- Name: Silicone Twin Pulse Tube
- Highlight: **Improved Milking Efficiency Vacuum Hose,
Elastic Silicone Vacuum Hose,
7.5x13.5mm Silicone Vacuum Hose**

Product Description:

The Milking Machine Tube, also known as Vacuum Tubing or Vacuum Hose, is an essential component for delivering vacuum in milking machines. Designed with flexibility and durability in mind, this white tube is a reliable choice for dairy farmers and agricultural professionals.

The Milking Machine Tube is made from high-quality materials that are non-toxic, ensuring the safety of the milk and the animals. Its flexibility allows for easy installation and maneuverability, making it a practical option for various milking setups.

With a model number of HL-MP35E and an outer diameter of 13.5, this Milking Tube is compatible with a wide range of milking machine systems. Whether you are milking a small herd or a large operation, this tube is designed to meet your vacuum delivery needs efficiently. One of the standout features of the Milking Machine Tube is its durability. Built to withstand the rigors of daily milking operations, this tube is resistant to wear and tear, ensuring long-term reliability and performance. You can trust this tube to consistently deliver vacuum without the risk of leaks or malfunctions.

Whether you are replacing an old milking tube or setting up a new milking system, the Milking Machine Tube is an excellent choice. Its white color adds a clean and professional look to your milking setup, while its practical design ensures seamless vacuum delivery throughout the milking process.

In conclusion, the Milking Machine Tube is a flexible, durable, and non-toxic solution for delivering vacuum in milking machines. With its compatibility, reliability, and ease of use, this tube is a valuable asset for any dairy operation looking to optimize their milking process.

Features:

Product Name: Milking Machine Tube

Name: Silicone Twin Pulse Tube

Model: HL-MP35E

Application: Milking Machine, Dairy Farm

Features: Flexible, Durable, Non-toxic

Working Pressure: Milking With 0.4-0.5MPa

Technical Parameters:

Temperature Range	-40°C To 120°C
Model	HL-MP35E
Name	Silicone Twin Pulse Tube
Length	50 Meters For Each Roll
Inner Diameter	7.5
Application	Milking Machine, Dairy Farm
Working Pressure	Milking With 0.4-0.5MPa
Features	Flexible, Durable, Non-toxic
Outer Diameter	13.5
Color	White

Applications:

The Silicone Twin Pulse Tube by Chuangpu (Model HL-MP35E) is a versatile vacuum tubing product designed specifically for use in milking machines. Made from food-grade silicone, this tube is safe for use with dairy products and offers durability and flexibility for reliable performance.

With an inner diameter of 7.5 and an outer diameter of 13.5, this vacuum hose is ideal for connecting the automated milk collector to the milking machine. The length of 50 meters for each roll ensures that you have an ample supply of tubing for your milking operation.

One of the key product application occasions for the Silicone Twin Pulse Tube is in dairy farms and milk processing facilities where a milking machine is used. This vacuum tubing plays a crucial role in creating the necessary suction for the milking process, allowing for efficient and hygienic milk collection.

Additionally, this vacuum hose can also be used in other agricultural settings where vacuum tubing is required for various applications. Its

food-grade silicone material ensures that it meets the necessary safety and quality standards for handling food products. Whether you are looking to upgrade your milking equipment or need reliable vacuum tubing for an automated milk collection system, the Silicone Twin Pulse Tube from Chuangpu is a dependable choice. Its high-quality construction and compatibility with milking machines make it a valuable component for dairy farmers and milk producers.
