Product Description:

The Dairy Cleaning Supplies product is essential for maintaining cleanliness and hygiene in farm milk houses. This product is designed with top-quality materials to ensure effective cleaning of dairy equipment and surfaces. The key features of this product include:

Washing Head: The washing head of this cleaning supply is constructed with durable stainless steel, making it resistant to corrosion and ensuring longevity.

Washing Cap: The washing cap is made of high-grade rubber, providing a tight seal and efficient cleaning performance.

Model: The Dairy Cleaning Supplies product is identified by the model HL-MP03, denoting its specific design and functionality.

Recommended Usage Frequency: It is recommended to use this product on a daily basis to maintain optimal cleanliness and hygiene standards in the milk house.

Applicability: The Dairy Cleaning Supplies product is specifically designed for washing the milk cluster group in the milking parlor. It is ideal for cleaning equipment such as milking claw brushes and ensuring the sanitation of dairy processing areas.

When it comes to farm milk house sanitizers and bulk tank cleaning chemicals, the Dairy Cleaning Supplies product stands out for its effectiveness and reliability. Whether you need to clean milking claw brushes or sanitize equipment in the milking parlor, this product delivers exceptional performance.

Investing in high-quality cleaning supplies is crucial for dairy farmers to ensure the safety and quality of their milk production. The Dairy Cleaning Supplies product offers a cost-effective solution for maintaining cleanliness in farm milk houses and dairy processing facilities. With its stainless steel washing head and rubber washing cap, this product is built to withstand daily use and provide thorough cleaning results. The model HL-MP03 is designed to meet the specific needs of dairy farmers, offering a practical and efficient solution for washing the milk cluster group.

For dairy farmers looking to streamline their cleaning process and improve hygiene standards, the Dairy Cleaning Supplies product is a must-have. Its recommended daily usage frequency ensures consistent cleanliness and sanitation in the milking parlor, helping to prevent contamination and maintain a healthy environment for milk production.

When it comes to applicability, the Dairy Cleaning Supplies product excels in washing milk cluster groups and other dairy equipment. Its versatility and effectiveness make it a valuable asset for dairy farmers seeking reliable cleaning solutions.

In conclusion, the Dairy Cleaning Supplies product is a top choice for dairy farmers in need of effective cleaning solutions for farm milk houses and milking parlors. With its durable construction, recommended daily usage frequency, and applicability for washing milk cluster groups, this product offers a comprehensive solution for maintaining cleanliness and hygiene in dairy operations.

Features:

Product Name: Dairy Cleaning Supplies

Tube Dia.: 38mm/50mm

Recommended Usage Frequency: Daily

Material: Stainless Steel

Model: HL-MP03

Weight: 1KG

Technical Parameters:

Product Type	Cleaning Supplies
Weight	1KG
Item Name	Milking Washing Plate (Jetter Tray)
Recommended Usage Frequency	Daily
Tube Dia.	38mm/50mm
Installing	Be Fixed On Washing Pipe By Clamp
Washing Head	Stainless Steel
Model	HL-MP03
Washing Cap	Rubber
Material	Stainless Steel

Applications:

Chuangpu Dairy Cleaning Supplies (Model: HL-MP03) are essential for maintaining cleanliness and hygiene in dairy farms, particularly in milking parlors. The product, originating from China, is designed to efficiently clean and sanitize milk cluster groups during the milking process.

The HL-MP03 Dairy Cleaning Supplies feature a durable stainless steel washing head that ensures thorough cleaning of equipment. The product is conveniently installed by being fixed onto the washing pipe using a secure clamp mechanism, providing stability during use.

One of the primary application occasions for Chuangpu Dairy Cleaning Supplies is the washing of milk cluster groups in milking parlors.

The product is specifically designed to effectively clean teat dipping cups and teat dip cups, ensuring that these crucial components remain sanitized for optimal milk quality.

In addition to daily milking routines, the HL-MP03 model is also suitable for bulk tank cleaning chemicals. Dairy farmers can rely on this product to maintain the cleanliness of bulk tanks, ensuring that milk storage remains free from contaminants.

Whether it's ensuring the proper sanitation of teat dipping cups or effectively cleaning bulk tank components, Chuangpu Dairy Cleaning Supplies offer a reliable solution for dairy farmers looking to uphold the highest standards of hygiene in their operations. Invest in the HL-MP03 model to streamline your dairy cleaning processes and safeguard the quality of your milk production.
