Product Description:

The Dairy Cleaning Supplies product is an essential item for maintaining hygiene and cleanliness in cow barns and farm milk houses. Specifically designed for washing milk cluster groups in GEA Milking Parlors, this product is a must-have for dairy farmers looking to ensure the efficiency and safety of their milking operations.

One of the key features of this product is its foldable design, which allows for easy storage and convenient use in tight spaces. The GEA Milking Washing Plate (Jetter Tray) is a versatile tool that can be used to effectively clean milk clusters and other milking equipment, helping to prevent contamination and improve overall milk quality.

The washing cap of this product is made of durable rubber, providing a tight seal and ensuring effective cleaning of milk clusters. The use of rubber material also helps to prevent damage to the equipment and prolong its lifespan, making it a cost-effective investment for dairy farmers.

Constructed from high-quality stainless steel, the GEA Milking Washing Plate is built to withstand the rigors of daily use in a busy dairy environment. The material is resistant to corrosion and easy to clean, ensuring that it meets the strict hygiene standards required for cow barn sanitation supplies.

When it comes to farm milk house sanitizers, the Dairy Cleaning Supplies product stands out for its reliability and effectiveness. By incorporating this product into their milking routine, farmers can ensure that their equipment is thoroughly cleaned and sanitized, reducing the risk of bacterial contamination and maintaining the health of their herd.

In conclusion, the GEA Milking Washing Plate (Jetter Tray) is a valuable tool for dairy farmers seeking to improve the cleanliness and efficiency of their milking operations. With its foldable design, rubber washing cap, and stainless steel construction, this product offers a reliable solution for washing milk cluster groups in GEA Milking Parlors. Invest in this essential cow barn sanitation supplies product today and experience the benefits of enhanced hygiene and milk quality on your farm.

Features:

Product Name: Dairy Cleaning Supplies

Type: Foldable

Model: HL-MP03A-2

Applications:

The Dairy Cleaning Supplies by Chuangpu, model number HL-MP03A-2, originate from China and are designed to be fixed on the wall using screws for easy access. This foldable cleaning product is ideal for daily use in washing milk cluster groups in GEA milking parlors. These cleaning supplies are specifically tailored for bulk tank cleaning chemicals, cow barn sanitation supplies, and farm milk house

sanitizers. Their applicability in GEA milking parlors makes them a perfect fit for dairy farms looking to maintain high standards of cleanliness and hygiene.

Whether it's for removing stubborn residues from milk clusters or ensuring proper sanitation in cow barns, Chuangpu's Dairy Cleaning Supplies offer a convenient solution. The recommended daily usage frequency ensures that dairy equipment remains in optimal condition, promoting milk quality and overall farm productivity.

By investing in these cleaning supplies, dairy farmers can streamline their cleaning processes, reduce the risk of contamination, and create a safe environment for both cows and workers. The foldable design adds to the product's convenience, allowing for easy storage when not in use.
