

## 350CC Milking Cluster Group Ultimate Solution for Dairy Farming Success and Efficiency

### Our Product Introduction

more products please visit us on [mobilemilkingmachine.com](http://mobilemilkingmachine.com)

#### Basic Information

- Place of Origin: China
- Brand Name: Chuangpu
- Model Number: HL-MP26C
- Minimum Order Quantity: One Set
- Price: Negotiable
- Packaging Details: Carton
- Delivery Time: 3-5 working days
- Payment Terms: T/T, Western Union,
- Supply Ability: 500SETS/Month

#### Product Specification

- Animal: Cow
- Liner Model: 009 Long Delaval Milking Liner
- Shell Model: Stainless Steel 201
- Cluster Liner Material: Rubber
- Used For: Dairy Farm Milking Parts
- Milk Claw: 350CC Milk Claw
- Consists Of: Milk Claw, Milk Liner, Milk Shell , Short Pulse Tube
- Suitable For: Vacuum Pump Milking Machine Parts
- Highlight: Dairy Farming Milking Cluster Group, Efficiency Milking Cluster Group, 350CC Milking Cluster Group

### Product Description:

The Cow Milking Cluster Group is an essential component in any dairy farm milking setup, offering a versatile and efficient solution for milking operations. Crafted from high-quality stainless steel, this milking cluster group is designed to provide durability, reliability, and optimal performance for dairy farmers.

Specifically used for dairy farm milking parts, the Cow Milking Cluster Group is a multipurpose milking gear that consists of vital components such as the milk claw, milk liner, milk shell, and short pulse tube. These components work together seamlessly to ensure a smooth and productive milking process, enhancing the overall efficiency of the milking operation.

With its cluster shell material being stainless steel, the Cow Milking Cluster Group offers a hygienic and easy-to-clean solution for dairy farmers. Stainless steel is known for its resistance to corrosion, heat damage, and bacterial growth, making it an ideal choice for dairy farm equipment that comes in contact with milk.

Whether you are operating a small-scale dairy farm or a large commercial dairy operation, the Cow Milking Cluster Group is suitable for vacuum pump milking machine parts of various capacities. Its versatile design and compatibility with different milking setups make it a versatile and convenient choice for dairy farmers looking to streamline their milking process.

Investing in the Cow Milking Cluster Group can significantly improve the efficiency and productivity of your dairy farm milking operations. With its durable construction, essential components, and compatibility with vacuum pump milking machines, this milking cluster group offers a reliable and cost-effective dairy farm milking solution that meets the needs of modern dairy farmers.

### Features:

Product Name: Milking Cluster Group

Cluster Liner Material: Rubber

Cluster Shell Material: Stainless Steel

Model: HL-MP26C

Shell Model: Stainless Steel 201

Suitable For: Vacuum Pump Milking Machine Parts

### Technical Parameters:

Consists of	Milk Claw, Milk Liner, Milk Shell, Short Pulse Tube
Cluster Shell Material	Stainless Steel
Shell Model	Stainless Steel 201
Name	Cow Milking Cluster Group
Liner Model	009 Long Delaval Milking Liner
Cluster Liner Material	Rubber
Used For	Dairy Farm Milking Parts
Suitable For	Vacuum Pump Milking Machine Parts
Animal	Cow
Model	HL-MP26C

### Applications:

The Chuangpu HL-MP26C Milking Cluster Group is a vital component for cow milking assemblies and milk harvesting machines. This product, originating from China, consists of essential parts such as the Milk Claw, Milk Liner, Milk Shell, and Short Pulse Tube. The Milk Shell is made of durable Stainless Steel 201, ensuring longevity and reliability in dairy farm milking operations.

Designed specifically for vacuum pump milking machine parts, the HL-MP26C model is suitable for various dairy farm milking parts scenarios. Its compatibility with different milking machines makes it a versatile and practical choice for dairy farmers looking to streamline their milking processes.

Whether used in small-scale dairy farms or large commercial operations, the Chuangpu Milking Cluster Group excels in enhancing the

efficiency and productivity of cow milking apparatus. Its reliable performance and sturdy construction make it a dependable choice for daily milking routines.

From routine milking sessions to intensive milking schedules, the HL-MP26C model proves to be a valuable asset in ensuring smooth and effective milk harvesting. Its components work seamlessly together to facilitate the milk extraction process, contributing to the overall success of dairy farm operations.

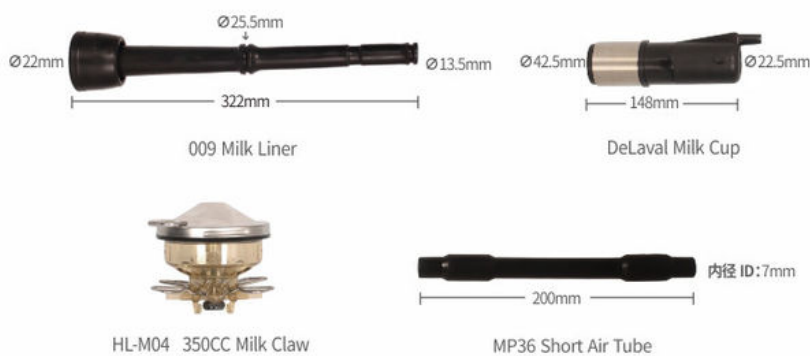

For dairy farmers seeking a dependable and efficient solution for their cow milking needs, the Chuangpu HL-MP26C Milking Cluster Group offers a reliable and durable option. With its focus on quality and performance, this product is a must-have for those looking to optimize their dairy farm milking processes.
