Product Description:

The Dairy Cleaning Supplies product, known as the Milking Washing Plate (Jetter Tray), is an essential item for maintaining cleanliness and hygiene in farm milk houses. Weighing at 0.2KG, this product is designed to effectively clean and sanitize milking equipment, ensuring the quality and safety of the milk produced.

The washing head of the Milking Washing Plate is made of durable stainless steel, providing excellent resistance to corrosion and ensuring a long product lifespan. This feature makes it a reliable tool for daily cleaning routines in milking parlors and dairy farms.

As a specialized product under the category of Cleaning Supplies, the Milking Washing Plate is specifically designed to be fixed on the washing pipe in the milking parlor. This installation method ensures a secure and stable position for efficient and convenient cleaning of milking equipment.

When it comes to maintaining hygiene standards in farm milk houses, using Farm Milk House Sanitizers is crucial. The Milking Washing Plate is a key component in the cleaning process, as it helps remove dirt, bacteria, and other contaminants from milking equipment, ensuring the milk produced is safe for consumption.

By incorporating Milking Equipment Cleaning Products like the Milking Washing Plate into the cleaning routine, dairy farmers can uphold high standards of cleanliness and sanitation in their milking operations. This not only benefits the health of the cows but also contributes to the quality and safety of the milk produced.

Overall, the Milking Washing Plate (Jetter Tray) is a reliable and effective solution for dairy farmers looking to maintain cleanliness and hygiene in their farm milk houses. With its stainless steel washing head, lightweight design, and easy installation process, this product is a valuable addition to any milking parlor's cleaning supplies.

Features:

Product Name: Dairy Cleaning Supplies

Product Type: Cleaning Supplies

Washing Head: Stainless Steel

Clamp Size: 38mm/50mm

Item Name: Milking Washing Plate (Jetter Tray)

Weight: 0.2KG

Technical Parameters:

Technical Parameter	Value
Washing Mat	Rubber
Weight	0.2KG
Product Type	Cleaning Supplies
Feature	Unique Design, Convenient To Place Milk Cup Group
Applicability	Washing Milk Cluster Group In Delaval Milking Parlor
Model	HL-MP04A
Material	Stainless Steel
Item Name	Milking Washing Plate (Jetter Tray)
Recommended Usage Frequency	Daily
Installing	Be Fixed On Washing Pipe In Milking Parlor

Applications:

Chuangpu Dairy Cleaning Supplies, model HL-MP04A, originating from China, are essential products designed for efficient dairy cleaning tasks. With a weight of 0.2KG and a washing head made of stainless steel, these cleaning supplies are reliable and durable for various applications.

One of the primary product application occasions for Chuangpu Dairy Cleaning Supplies is in the washing of milk cluster groups in Delaval milking parlors. The Milking Washing Plate (Jetter Tray) is specifically crafted for this purpose, ensuring thorough cleaning and

maintenance of milking equipment.

These cleaning supplies are suitable for use with Bulk Tank Cleaning Chemicals, providing a comprehensive cleaning solution for dairy facilities. The stainless steel washing head ensures effective removal of dirt and residue, promoting hygienic practices in milking processes.

Whether it's cleaning milking clusters or maintaining equipment such as the Milking Claw Brush, Chuangpu Dairy Cleaning Supplies offer versatility and efficiency in dairy cleaning tasks. The durable construction and reliable performance make them ideal for daily use in dairy farms and milking parlors.

With a focus on quality and functionality, these cleaning supplies cater to the specific needs of dairy farmers and milk processing facilities. The applicability of Chuangpu Dairy Cleaning Supplies in various dairy cleaning tasks makes them indispensable tools for maintaining a clean and sanitized environment in the dairy industry.
